

# INTRODUCTION

Penn National Race Course opened August 30, 1972 and is the second oldest continuously operating Thoroughbred racetrack in the Commonwealth. Over its 42-year history Penn National has been an innovator and national leader in the pari-mutuel industry.

The Carlino family that took control of Penn National in the early 1980's was able to take this single racetrack and parlay that success into the publicly traded Penn National Gaming, Inc., now one of North America's largest and most diversified gaming and racing companies with annual revenues in excess of \$2.9 billion and 27 facilities in 18 different jurisdictions, including Colorado, Florida, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Missouri, Nevada, New Jersey, New Mexico, Ohio, Pennsylvania, Texas, West Virginia, and Ontario. Additionally, Penn National Gaming will soon be adding a facility in California.

In aggregate, Penn National's operated facilities feature approximately 36,800 gaming machines, 850 table games, 2,900 hotel rooms and 1.6 million square feet of gaming floor space.

Horse racing and pari-mutuel wagering continue to be an integral part of Penn National Gaming's continued growth strategy. The company is the largest owner-operator of pari-mutuel racing facilities in North America with 11 wholly or jointly owned operations that conduct nearly 1,200 live racing performances annually and processes in excess of \$1 billion in live and simulcast pari-mutuel wagers.

February 2008, ushered in a new era of Thoroughbred horse racing in Central Pennsylvania. Hollywood Casino at Penn National Race Course (HCPNRC) became the first established racetrack in the state to embrace the legislative intent of Act 71 in creating a fully integrated racing AND gaming facility. The \$325 million project featured all new facilities for racing guests, officials and participants.

Since its passage, HCPNRC has aggressively worked to embrace the legislative intent of Act 71 with respect to stable area improvements.

In 2008, HCPNRC and the PA HBPA entered into a ten year \$10 million commitment for stable area improvements. In just over 7 years, \$9.2 million has been invested in the construction of new barns, improved electrical and plumbing infrastructure, roadway improvements and compliance with Federal and State manure handling requirements.

In addition to the investments noted above, close to \$5 million in capital improvement projects dedicated to horse racing have been completed comprised of new track maintenance equipment, a new equine ambulance, new stable gate entrance area with additional fencing, a refurbished receiving barn and perimeter fencing, a new Laundromat and Medical Clinic, a new roof on the Chapel, security cameras in the Receiving Barn, 21 new storage trailers for the barns and shadow fencing around the perimeter of the race track. Additionally, working in cooperation with the PA HBPA we have constructed a new groom's dormitory, at a cost of \$800,000, that is designed to house 50 stable area employees.

HCPNRC is proud of the improvements it has made to its racing surface. Working closely with the PA HBPA new materials used on the dirt track have resulted in a lower rate of catastrophic injuries and a 30% decline since 2009. Additionally the rate of catastrophic injuries has been at or below the national average the past five years. Also in 2014 we implemented a new aeration program for the turf course. The system known as Dry-Ject is a two phase process that uses water jets to penetrate the

surface of the soil and inject a porous silica sand into the existing growing medium. The first phase "punches" holes on a six inch by six inch grid pattern and penetrates the surface eight to twelve inches deep and injects the silica sand. The second phase injects the silica sand in a fractured pattern to a depth of about four inches. The results of this process are a healthier, faster drying turf course with deeper root growth for extended durability. The Dry-Ject process was developed for golf courses and sports fields and has been used at Marion Country Club, home of the 2013 U.S. Open and at Lincoln Financial Field, home of the Philadelphia Eagles. To the best of our knowledge, Penn National Race Course has been the only race track in the U.S. to adopt this technology and we are enthusiastic about the results.

As a leader in the pari-mutuel industry Penn National understands the many diverse challenges facing horse racing. These challenges which have gained national exposure and attention are not new, nor unique to Penn National, or for that matter any of the racetracks in the Commonwealth. In its continuing efforts to maintain its leadership role and commitment to racing, Penn National Gaming introduced its "Horsemen's Guide" (enclosed) in 2011, for all its pari-mutuel facilities. The Guide is updated and revised annually, details national and local integrity standards and clearly states the expectations IICPNRC has of those wishing to participate and those participating at its facility. The "Guide" is a detailed publication giving horsemen direction and information when racing at Penn National.

Our concern with the humane treatment of our equine population has resulted in a corporate wide policy on horse slaughter with penalties for those who violate the policy. In furtherance of our commitment in this area, Penn National has donated \$50,000 over a four-year span to various horse retirement programs for the PA HBPA, including New Start, CANTER of PA, and RcRun.

Additionally, the Penn National Gaming tracks have been at the forefront of the battle for the adoption of unified medication rules as recommended by the Racing Medication Testing Consortium (RMTC) which would limit the use of therapeutic medications in horse racing. Penn National was also the first Thoroughbred track in the Commonwealth to utilize an independent contractor to administer furosemide (Lasix) on race day.

The pari-mutuel industry has endured significant change over the past 20 years, with Pennsylvania being at the forefront in many of these areas.

Intrastate, and then interstate simulcasting exploded in the 1980's and early 1990's bringing greater choice to racing customers and providing new distribution outlets and revenue opportunities to Pennsylvania racetracks and horsemen.

A new breed of Off-Track Wagering (OTW) was developed and perfected in Pennsylvania through track owned OTWs featuring dining facilities and sports bar amenities -- shattering the previous, undesirable and now defunct OTB model that had been developed in New York State. Penn National was a trailblazer in the development of OTWs both in central Pennsylvania and, through its prior ownership of Pocono Downs, in the northeastern portion of the state. Over the years the convenience of wagering from home via the phone or internet has grown at the detriment of the OTW's. The expense of the brick and mortar facilities has become burdensome and needs to be closely scrutinized if it is to continue in a profitable fashion in the future.

First telephone account wagering, and later wagering via computers and the Internet, provided yet another valuable distribution tool for Pennsylvania racetracks and were a response to the continuing change in preferences of increased information and access by the horse racing fan. Penn National's Telebet, a live telephone operator service, was one of the first operations of its type in North America.

The evolution of increased off-site distribution forged by Pennsylvania since the 1980's has been emulated in many other states with similar growth trajectories. This cycle of change has redefined the current horse racing business model in many ways from economics to customer wagering and viewing habits. Given these developments have occurred over a 20-year time span many of these innovations have reached maturity status and are now in decline, both in Pennsylvania and nationally.

Today, handle on horse racing nationally is generated in most jurisdictions not on live racing occurring at the racetrack, but on simulcast horse (or dog) racing being broadcast into these facilities and through off-site distribution channels. The 2015 Jockey Club Fact Book indicated that only 11.1% of the \$10.5 billion wagered (down 3% from 2013) on Thoroughbred Racing in the United States was generated through live racing at on-track sources. (see Exhibit 1) The remainder was generated away from the racetrack, in many places by third parties that may or may not have significant links or vested economic interests in the racing industry, adding yet another competitive layer of complexity to the industry puzzle.

Given greater consumer choices and usage channels, and a significant imbalance in terms of supply and demand regarding racing dates and available horse supply, the negative impact on live racing handle and attendance has been noticeable at not only racetracks in the Commonwealth, but across the nation. Again, we refer to the 2015 Jockey Club Fact Book reports on pari-mutuel handle trends, Average Field Size, Starts Per horse and Foal Crops as proof of these continued downward trends (see Exhibit 1).

While being highlighted nationally as a strong racing state, Pennsylvania saw a drop in foal crop, again in 2013. For the third time since 2004 – the foal crop dropped from 1,533 in 2010 to 1,186 in 2011 to 932 in 2012 and 878 in 2013. While the North American Foal crop had dwindled as well over the last several years, the percentage of Pennsylvania registered foals has dropped from 5.5% in 2010 to 3.9% in 2013 (see Exhibit 1). Additionally, the number of mares bred and stallions standing in the State of Pennsylvania have also been in decline since 2009 (see Exhibit 1).

These numbers point to Pennsylvania racing hitting a plateau and future growth will be difficult unless changes are made. Pennsylvania Racetracks and Horsemen needs to take a serious look at the number of racing dates that are being conducted in the Commonwealth. A potential circuit among the tracks could help grow field size, increase purses and create a superior product. Field size has unequivocally been shown to have a great impact on handle with larger fields generating larger handles.

Among Thoroughbred racetracks, competition for quality and optimum numbers of available racehorses to fill race cards is a challenge, even with purse (prize) money increasing due to alternative gaming revenue sources. One only needs to look at the above mentioned national and local trends to see the reasons why. The introduction of Act 71 and the significant influx of funding from slot machine gaming dollars to purse and breeders funds has created the opportunity to significantly increase earning opportunities for horse owners, breeders and trainers, allowing Pennsylvania to move up in stature among not only racetracks in the competitive Mid Atlantic Region but among tracks on the national landscape as well.

Despite the challenges racetracks face in attracting customers to its brick and mortar facilities, Penn National continues to strategically invest in its facility to expand the market and offer customers and horsemen a first class experience. HCPNRC made a significant capital investment in a state of the art High Definition Video Production equipment for the production and dissemination of its live racing product. HCPNRC joins only a handful of tracks across America who have made such a substantial

investment to supply superior quality video to its racing fans. Additionally a new graphics package was introduced with the high definition rollout.

With respect to Horsemen issues, Penn National is proud of the relationship it has fostered with the PA IIBPA. We have worked with them on a number of major initiatives that we feel will greatly benefit racing in the Commonwealth. Foremost among these is the creation of a stakes schedule in 2013 centered around marquee events and featured the inaugural running of the \$500,000 Penn Mile. This partnership has continued into 2015 with a renewal of the stakes program and the third running of the Penn Mile. In Part II of the following report, the planning and results of the most recent two runnings of this event will be detailed and we hope this day will continue to succeed in the future and help bolster racing at HCPNRC and in the Commonwealth as a whole.

The Pennsylvania State Department of Agriculture and the Gaming Control Board have asked racetrack operators in the state to detail the impact of Act 71 as it relates to facility investments and improvements, existing and future marketing and promotional efforts regarding horse racing, on-track attendance for live racing and benchmarks for breeding, racing and handle. Penn National Race Course is pleased to present the enclosed information which illustrates the many diverse impacts of casino gaming on horse racing at HCPNRC and will be responding in the order as presented by the Department of Agriculture's previously distributed outline.

## PART I LIVE ATTENDANCE

1. *Furnish documentation of how the introduction of slot machine gaming at the licensed racetrack has enhanced live racing by increasing live attendance over the calendar year.*

### A. Total attendance statistics – daily, monthly and annually

Total attendance statistics for Hollywood Casino at Penn National Race Course (herein referred to as "HCPNRC") (Grantville) and the four Off-Track Wagering facilities are enclosed (see Exhibit 2) for 2014.

Attendance is presented on a day-to-day basis along with monthly totals. (Exhibit 2)

Annual attendance for each facility is as follows for the past three years:

|                  | 2014    | 2013    | 2012    | 2014-2013<br>% Change |
|------------------|---------|---------|---------|-----------------------|
| Grantville       | 273,296 | 207,735 | 161,223 | 31.6%                 |
| Chambersburg OTW | 0       | 23,390* | 39,073  | *                     |
| Lancaster OTW    | 34,912  | 38,378  | 42,818  | -9.3%                 |
| Reading OTW      | 38,541  | 44,502  | 51,418  | -13.4%                |
| York OTW         | 56,372  | 63,907  | 70,663  | -10.8%                |

\*Chambersburg OTW closed on July 31, 2013

**B. Description of the general demeanor and qualities of facility and amenities.**

As of February 2008, Live Horse Racing and Simulcast Wagering have been conducted within the state of the art, \$325 million facility at HCPNRC. Some of the facility features include:

- Over 40 separate wagering locations with Sportech wagering terminals offering either manned tellers or self-service capabilities.
- Over 110 flat screen, LCD monitors (many of which were replaced in January of 2015) capable of showing High Definition racing and sporting events (where offered.) Live racing from HCPNRC is now shown on monitors in HD on the casino floor and in the popular Skybox sports bar.
- The 450-seat Mountainview dining room overlooking the racetrack is open every live racing night. Each table includes an individual television monitor with many also offering touch screen, table top wagering machines.
- In our box seat area which accommodates 256 guests, food offerings as well as free live racing programs are now available to our paying patrons. Public seating is available to the general population free of charge with box seats available for sale on a nightly or annual basis.
- The 150-seat simulcast teletheater features individual handicapper work stations, 24 55" flat-screen LCD monitors, 12 additional 32" flat-screen TVs and 16 tabletop wagering terminals and a food service area.
- The Paddock Café, an 80+ seat lounge located adjacent to our Paddock/Walking Ring features wagering terminals, program sales, flat-screen televisions, a food court and easy access to the box seats and Mountainview dining.
- An expansive outdoor apron area provides up-close viewing of the Paddock and racing for guests with dozens of picnic tables and other seating options. There is easy access to expanded wagering terminals. Increased food and beverage options have been implemented over the last year, including a BBQ smoker on the apron that is open weekends over the summer.
- The \$200,000 stairway from the box seats and Mountainview dining room to the Paddock Café area was added in 2011 and affords customers and horsemen easy access to the paddock and walking ring area.
- On the racing side, HCPNRC offers a one-mile dirt track, a seven-eighths mile turf course (the first one constructed in the

state) and offers year-round stabling for approximately 1,100 horses in 25 barns. As part of its agreement with the PA HBPA to conform to the backstretch improvement provisions of Act 71, HCPNRC has constructed 13 new barns since mid-2008. HCPNRC entered into a 10-year, \$10 million backstretch capital improvement program in consultation with PA HBPA.

**C. Description of appropriate signage and information so patrons can easily access and utilize racing facilities.**

Exhibit 3 provides photographs of some of the signage within the HCPNRC facility relating to horse racing. The integrated racing and gaming facility provides easy access from the first floor gaming area to the second and third floor dedicated racing sections. In addition, the facility has convenient and direct access off the casino floor to the outside racing areas.

Guests of the racetrack can conveniently park in the modern 2,500 car parking garage which provides direct access to the second floor Mountainview Dining Room and Simulcast Telethecater level facilities and to the third floor box seat level.

**D. Description of changes to physical plant.**

The original grandstand building at HCPNRC was razed in 2006 and was replaced in its entirety with a \$325 million state of the art, integrated racing and casino gaming facility. All amenities for racing guests, racing officials and jockeys were part of this new construction.

HCPNRC introduced Table Games in July 2010. Currently there are over 2,400 slot machines on the gaming floor in addition to 64 table games and 16 poker tables. Television monitors dedicated to horse racing are located throughout the casino.

In 2014 HCPNRC, in cooperation with the PA HBPA spent \$775,000 to construct a new 25 room, 50 bed grooms' dormitory. The climate controlled facility offers accommodations for men and women and a common area for social gatherings. To date the facility is approximately 55% occupied. Also in 2014, HCPNRC built another new barn, at a cost of \$380,000 bringing the total number constructed since 2008 to 13. Two additional barns are slated for 2016.

Other upgrades and improvements for 2014; \$37,000 to improve turf track drainage, \$17,000 for race track privacy fencing, \$34,000 sewage line improvement and approximately \$18,000 in other miscellaneous repairs and improvements.

2. Describe plans to improve attendance at licensee's racetrack over the successive calendar year in addition to a marketing plan that includes:

A. Planned promotional programs to attract patronage

Beginning in 2013, HCPNRC restructured its stakes program to create two "Marquee Event Days", Penn Mile Day (run between the Preakness Stakes and the Belmont Stakes) and The Holiday Racing Festival, formerly known as Fabulous Strike Day (run in late fall). Marquee Event Days such as the Breeders' Cup, Maryland Million Day, Charlestown Classic have been proven across the racing industry to increase awareness and excitement, both locally and nationally for the host track. Awareness of this type has become extremely important as almost 90% of live handle is generated by off-track simulcast facilities.

In 2012, the open HCPNRC stakes schedule consisted of 12 races, all with purses between \$75,000 - \$200,000, and split out over five days. In contrast, the 2013 HCPNRC stakes schedule was a radical departure, consisting of six open stakes races split over only two days, including two \$200,000 stakes races, and the new premier race for HCPNRC, the \$500,000 Penn Mile. The idea being that in order to make a splash on both a regional and national level, it would be necessary to create a day that could lure some of the top horses, trainers, and jockeys in the country to HCPNRC. The 2014 stakes schedule continued to evolve with the addition of the Penn Mile counterpart for three year old fillies, the Penn Oaks.

HCPNRC continues to put a major marketing and advertising efforts behind the Marquee Event Days, including advertising nationally with the following major print, online, and TV outlets: Daily Racing Form, Paulick Report, Horse Racing Radio Network (HRRN), and Horse Racing TV (HRTV). Locally, the Penn Mile was advertised in the Patriot News, on select Cumulus Radio stations, online at [www.hcpn.com/racing](http://www.hcpn.com/racing), via on-track signage (starting gate, finish line, building, racing program), and also via the HCPNRC international simulcast TV feed.

The inaugural Penn Mile Day was a rousing success. The race attracted three graded stakes winners, a horse from the Kentucky Derby, and four of the best jockeys in the country - Hall of Famers John Velazquez and Edgar Prado, 2013 Kentucky Derby winning jockey Joel Rosario, and Javier Castellano. The impressive winner was Rydilluc for trainer Gary Contessa.

HCPNRC shattered all of its previous handle records. All-sources wagering on the Penn Mile race itself was \$1,139,478, making it far and away the largest single-race handle in the 40-year history of the track. The previous record was the Pennsylvania Governor's Cup Handicap on August 1, 2009, which handled \$377,365.

Total all-sources wagering on the entire ten-race card at Penn National was \$3,658,996, shattering the previous all-sources handle record for a single card of \$2,173,921, which was set on December 26, 1998.

The second renewal of Penn Mile Day, on May 31, 2014, saw similar successes, attracting numerous graded stakes winning horses such as, eventual winner, Bobby's Kitten, who went on to win the prestigious 2014 Breeders' Cup Turf Sprint and propel the Penn Mile to Grade 3 status by the North American Graded Stakes Committee, an achievement rarely done in just two runnings.

The third running of the Penn Mile (first with Graded Status) on May 30, 2015 set the new standard for racing at HCPNRC by attracting horses from every major racing jurisdiction in the U.S., such as Kentucky Derby contender Ocho Ocho Ocho and Papacoolpapacool from California, My Point Exactly from Florida, Granny's Kitten and Tuba from Kentucky and eventual winner Force the Pass from New York.

The full fields and quality, competitive races forged the way for a setting NEW single race and single day handle records \$1.25mm and \$3.86mm respectively.

HCPNRC looks to build on the excitement generated by the Penn Mile in the coming years.

The second of two major stakes nights planned for 2014 The Holiday Racing Festival was postponed by the first named winter storm of the season to impact the Central Pennsylvania region. The race card originally planned for Thanksgiving Eve, was moved in its entirety to Saturday, November 29, 2014. The three stake race card featuring the \$200,000 Fabulous Strike Handicap attracted horses such as Ben's Cat, who won his third straight Fabulous Strike title, Stormin' Monarchs and Tightend Touchdown. HCPNRC has built out a nice niche of terrific Thanksgiving Eve racing and is hopeful that it will be able to complete the card on that day without incident in the future.

Additionally, in 2015, HCPNRC introduced exhibition Camel and Ostrich racing to the Central PA area. The event held on June 5, became an instant fan favorite as patrons literally filled the trackside apron, in what was described by one long time employee as the "largest crowd on the apron since the concerts in the late seventies"

Additional promotional activities currently planned are as follows:

- The Budweiser Clydesdales will be on track on late June and are always a crowd favorite.
- Trackside Micro Brew Beer Festivals
- Food Truck Festivals
- Penn National continues its agreement with the Television Games Network "TVG", the largest broadcaster of live racing in the country showing HCPNRC races and giving the racing product expanded coverage.

- The World Series of Handicapping (WSH) is the oldest handicapping contest in the country (started in 1977) and this year will include a \$5,000 guaranteed first prize.
- HCPNRC has hosted several editions of the FERENTRI (International Federation of Amateur Riders) events
- HCPNRC, its OTWs and Ebct/Telebet have a guest loyalty program "Players Choice" where guests may earn points redeemable for wagering vouchers and programs/handicapping materials. Approximately 30% of total handle annually is tracked through this program.
- In order to heighten the on-track excitement for the Triple Crown, HCPNRC offers special promotions and restaurant offerings during each leg, the Kentucky Derby, Preakness, and Belmont Stakes.
- In 2012, HCPNRC launched a new eBetUSA online Advanced Deposit Wagering (ADW) site, [www.ebetusa.com](http://www.ebetusa.com), with a multitude of new features and improvements to provide for a more customer friendly experience.

Please see Exhibit 4 for various items related to the Penn Mile, Holiday Racing Festival and other promotional events, including advertisements, on-track signage, previews of races, photos and recap articles.

#### B. Plans for public awareness and outreach

Please see Part I, Section 2 to read about many of the public awareness and outreach plans HCPNRC put into motion.

Additionally:

- In 2015, HCPNRC began a "Grass Roots" community awareness and promotional program with charitable organizations such as Susquehanna Service Dogs, R.A.C.E. Fund Horse Retirement and Manada Creek Pony Club. Charitable Organizations are invited to attend and promote their programs on our major racing days in exchange for their messaging their social media followership about their attendance at the event.
- Also in 2015, HCPNRC introduced the Saturday Sunrise program in cooperation with the PA HBPA. The program scheduled for one Saturday morning each month during the summer, invites racing fans of all ages to come out and watch morning training and meet owners, trainers and jockeys in a casual setting while enjoying a free continental breakfast.

- HCPNRC continues to utilize social media such as Facebook, Twitter and YouTube pages to help promote the racing product. The Facebook page, in particular, has been greatly received by fans, with numerous updates each week and lots of fan interaction (see Exhibit 5)
- HCPNRC continues to advertise its big horse racing events in the Patriot-News, a Harrisburg newspaper with a circulation in excess of 490,000 readers. This advertising is utilized to help promote specific big racing events at Penn National like the Penn Mile this past June (see Exhibit 4).
- HCPNRC sends out monthly mailers to approximately 50,000 people and each mailer contains information about racing.

**C. Proposed changes to physical plant (if any)**

Please see Part I, Section 1.

**PART II HANDLE**

**1. *Furnish documentation of how the introduction of slot machine gaming at the licensed racetracks has enhanced live racing by increasing live handle over the calendar year. Please include the following:***

- A. Total amount of live handle wagered on races conducted by licensee.**
1. On-track
  2. Off-Track
  3. Account Wagering
  4. Other Guest Locations

Please see Exhibit 6 for detailed statistics in all the above mentioned categories for calendar years 2014, 2013, 2012, 2011, 2010 and 2009.

- B. Total amount wagered on simulcast races received by the licensee**
1. On-Track
  2. Off-Track
  3. Account Wagering

Please see Exhibit 6 for detailed statistics in all the above mentioned categories for calendar years 2014, 2013, 2012, 2011, 2010 and 2009.

2. Describe plans to increase live handle and simulcast handle with both licensee and at guest locations. UPDATE

Please see Exhibit 6

2014 was a year of decline from a handle stand point. All-sources handle on races run at Hollywood Casino at Penn National Race Course was \$175,318,294 in 2014, down 17.4 % from \$212,168,833 in 2013. This trend was driven in a large part by 18 race card cancellations, due to severe winter weather.

In addition to the decreases on the live racing, daily total on site handle dropped 17% in 2014 to \$73,342,643 from \$88,478,134 in 2013. The decreases in handle are representative of several factors that affected business levels in 2014 from race day cancellations to contract disputes that eliminated simulcasting products from some of the most popular winter racing venues such as Santa Anita, Gulfstream Park and Tampa Bay Downs during the month of December and continued through the first quarter of 2015.

Additionally, On-site handle continues to decline due to the lack of racing inventory as demonstrated in Exhibit 1, which shows another drop of almost 5% in the total number of races run in North America for 2014, combined with ever shrinking number of starters per race. Continued development of the "on track" product has become increasingly important as the availability of the simulcast product dwindles. HCPNRC will continue to market and grow its Marquee Race Days and working on the strategies out lined in Part I Section 2.

### PART III NATIVE BREEDING INDUSTRY UPDATE

1. *Furnish documentation of how the introduction of slot machine gaming at the licensed racetrack has enhanced live racing by increasing the number of PA-bred or PA-sired horses participating in races at track over the calendar year. Please include the following:*

A. Total of individual PA-bred/sired horses competing at racetrack, total number of starts these horses made and total purses earned.

In 2014 a total of 1,312 individual PA-bred/sired horses competed at Hollywood Casino at Penn National Race Course. These horses won 766 races, made a total of 5,868 starts and earned \$17,254,066, the highest amount of earning by PA Breds at HCPNRC since alternative forms of gambling have been introduced.

B. Percentage of the whole that these PA-bred/sired horses contribute to the total number of horses competing at its track, the percentage of the whole as to total number of starts made, the percentage of the whole of purses earned.

Statistics are not kept as to individual horses competing at HCPNRC. In 2014 a total of 12,010 starts were made at HCPNRC, PA-bred/sired horses made up 48.86% (up from 45.73% in 2013) of that total. Total purses distributed at HCPNRC in 2014 were \$31,014,300 with PA-bred/sired horses earning \$17,254,066 or 55.63% (up from 46.76% or \$15,822,488 in 2013).

C. **Total number of races restricting entry to PA-bred or PA-sired horses and total purses paid in restricted races.**

In 2014 a total of 284 races were restricted to Pa-bred/sired horses. There were 279 overnight races and 5 stake races for a total purse distribution of \$17,254,066.

Exhibit 7 documents information regarding PA-bred/sired races from 2007 through 2014. Information for these statistics was provided by the Pennsylvania Thoroughbred Breeders Association and the HCPNRC Horsemen's Bookkeeper utilizing information provided by InCompass Solutions.

2. **Describe plans to increase participation of PA-bred or PA-sired horses and total purses paid in restricted races.**

As is clearly evident by the number of races written and won by Pennsylvania bred horses in 2014, HCPNRC has, and will continue to be, an active partner with the Commonwealth's Thoroughbred Breeders and Horsemen in the promotion and advocacy of state-bred racing opportunities. HCPNRC desires a strong PA-bred racing program that can produce an adequate quantity of quality racehorses that are competitive not only against other PA-bred horses, but also against open company. A strong PA-bred program benefits all facets of the horse industry in the state and stimulates interest among the wagering public.

In addition to being an active member of the PA Breeders Advisory Committee, HCPNRC offers many advantages to state-bred/sired horses competing here on a year-round basis. These current advantages include:

- In concert with the PA HBPA and the PA Breeders, HCPNRC put on PA Owners Appreciation Day on Saturday, September 6, 2014, with all races having enhanced purses and preference to horses that have a history of racing at HCPNRC
- The 2015 PA Owners Appreciation Day is still in the planning phase, but will include the same enhancements and similar preferences as to those in 2014.
- Each Penn Mile Day, stakes and overnight races restricted to PA breeds are carded in order to help promote on a national stage the best horses and stallions that PA has to offer.
- Up to two (2) races per day in the Condition Book written exclusively for PA-bred horses;
- Per statute, any race with at least eight (8) separate PA-bred entrants is closed exclusively for PA-breeds;
- PA-breeds receive preference in entering of horses at HCPNRC;
- A 20% additional bonus in purse money for owners of a PA-bred horse competing at HCPNRC.

We are thrilled to report that opportunities for PA-bred horses at HCPNRC continued to increase as a percentage of the total racing product in 2014. A total of 284 races were carded exclusively for PA-bred horses – eight times the number of racing opportunities for PA-breeds since 2007.

HCPNRC is extremely appreciative of the role the PA-Bred horses have taken by becoming an increasing portion of our racing product. In this time of constriction in the industry, it is a testament to the PA Breeders' hard work, as the PA-Bred horses going to the race track are one of the few growth sectors in the industry.

HCPNRC requests that the Racing Commission and Gaming Board contact the PA Breeders Association and request any additional information it deems important to supplement information that may have been omitted from this report. In addition, HCPNRC welcomes any feedback and proactive actions by the Thoroughbred Breeders to stimulate horse ownership and interest.

## PART IV CLASS

1. *Furnish documentation of how the introduction of slot machine gaming at the licensed racetrack has enhanced live racing by improving the quality in the class of races over the calendar year. Please include the following:*

- Type of race
- Number of Races
- Number of Starters
- Purses Paid

See Exhibit 8 for a detailed chart of this information from 2007 (pre-slot machine gaming at PNRC) through 2014.

Also included is a chart of Claiming Activity (Exhibit 8) at HCPNRC from 2007 through 2014. This benchmark shows that there is still a strong interest in ownership of racehorses and that the economics of horse ownership are geared towards allowing individuals to invest in the industry through the claiming route. The number of claims has increased over 200% from 2007 to 2013, dollars spent on claims has increased 383% from 2007 to 2013. The quality of races is also shown through a 59% increase in the average claiming price from 2007 to 2013.

2. *Describe plans to improve class of horses in races for successive calendar year.*

Since 2007 average daily purse distribution has increased from \$70,000 to \$188,000 in 2012. In 2014 average daily distribution dropped to \$165,000 as purse revenues from all sources face increasing pressure and competition. The early increases in daily purses has brought an influx in not only an increased quantity of horses to race at HCPNRC, but a noticeable improvement in the overall quality of horses competing at the racetrack. This quality has not waned despite the decrease in 2014 and actually continues to grow as evidenced by the increase in the number of allowance, optional allowance and starter allowance races run year over year. This is illustrated in Exhibit 8.

HCPNRC has been transitioning its racing program from a predominately lower level claiming/conditioned racing product to a mid-level claiming and allowance racing format. New trainers and horses from around the country have applied and received stalls and interest continues to be high with new racing operations arriving daily. HCPNRC works closely with the PA-HBPA in order to create a balanced racing program and equitable purse distribution. Many of the lowest level claiming categories have been eliminated, and efforts will continue to refine the qualifying conditions throughout 2015 and going forward. These changes have resulted in higher percentage of claiming races with a claiming price of greater than \$5,000.

In 2012 HCPNRC and the PA-HBPA agreed to, the largest stakes program at HCPNRC in over a decade. This included the richest race ever at HCPNRC, the \$500,000 Penn Mile, as detailed in Part I, Section 2. In 2014, the open stakes program was \$1.4 million, a slight reduction from the \$1.45 million offered in 2012 and 2013, but still ahead of the \$1.3 million in 2011 and \$720,000 in 2010. The 2014 the stakes schedule was scaled back slightly in value to stay consistent with the reductions in available purse dollars. HCPNRC is still in the lower echelon within the region in allocation of total available purses for stakes.

Despite the larger purses in recent years, HCPNRC must still compete against many other regional racetracks with enhanced purse supplements as well as large overlaps in racing dates. Competition in the Mid-Atlantic region is fierce for available, quality horses, with 11 thoroughbred racetracks within a four-hour radius of HCPNRC.

Even with the influx of available purse funds over recent history, trends in Thoroughbred breeding and training philosophies are cutting down on the number of horses available to race. This trend will cause continued problems for all racetracks going forward to offer competitive, quality races with adequate field sizes to generate wagering interest from racing customers. Through 2012, 2013 and into 2014, field size took a precipitous drop and continues to be a major concern on a daily basis.

Through 2014, average field size for the year at HCPNRC was 7.20, a substantial drop from 7.61 during the same period in 2013.

HCPNRC, and Penn National Gaming strongly believes that the horse racing industry, not only in Pennsylvania, but in the Mid-Atlantic region and nationally must seriously look at the number of live racing dates being offered, the available horses to fill those race cards and come to some coordinated effort to improve the wagering handle on races while also balancing the economic realities of horse ownership. Racing date mandates based on artificial numbers, not marketplace realities are detrimental in the long run in producing a quality product which is attractive to the wagering public.

HCPNRC is willing to take a leadership role in this area but needs the cooperation of other tracks, horsemen and racing commissions in order to make this effort succeed. To that end Penn National is involved in discussions with other Mid-Atlantic racing entities regarding coordinating stakes, racing dates and condition book information.

## **PART V. RESIDENCE**

1. *Furnish documentation of how the introduction of slot machine gaming at the licensed racetrack has enhanced live racing by increasing the number of PA residents participating in the Commonwealth's racing industry throughout the calendar year. Please include the following:*

A. **Number of PA residents participating at the track as owners and trainers**

In 2014 a total of 718 individuals listed as owners and/or trainers had registered accounts with the HCPNRC Horsemen's Bookkeeper with a Pennsylvania address. Another 91 Jockey accounts had PA addresses.

Exhibit 9 details the PA/Non-PA resident information for participants in racing at Penn National Race Course from 2007-2014.

B. **Percentage of the whole that PA residents contribute to the total number of owners and trainers.**

In 2014 there were a total of 2,141 registered owners-trainers in the Horsemen's Bookkeeper system. PA residents accounted for 33% of those accounts (718).

In 2014 there were a total of 249 Jockey Accounts with 91 (37%) being PA residents.

Exhibit 9 details the PA/Non-PA resident information for participants in racing at Penn National Race Course from 2007-2014.

C. **Total purse earnings of PA residents at track of owners (as determined by address of stable or lead owner) and trainers.**

PA resident owners-trainers earned \$17,043,565 in purses in 2014 at HCPNRC. Total earnings by PA resident jockeys at HCPNRC in 2014 were \$2,526,287.

Exhibit 9 provides a breakdown of PA and Non-PA resident accounts for Jockeys and Trainers/Owners in our Horsemen's Bookkeeper System for 2007 through 2013.

D. **Estimated amount of purse earnings of non-PA residents stabling horses at the track.**

This is not an easily identifiable number, however, of the 103 individual trainers stabled on the grounds of HCPNRC, a total of 93 (90.2%) are PA residents.

2. *Provide strategy to increase participation of Pennsylvania residents in the PA racing industry for successive calendar year.*

HCPNRC feels that many of the improvements to the physical plant in the clubhouse, grandstand, and backstretch, have made HCPNRC more attractive for horse owners. Without question the influx of increase purses from Slot Machine Gaming has greatly benefited horse owners in making the cost proposition of horse ownership more attractive.

The creation of our marquee stakes events, like the \$500,000 Penn Mile, detailed in Part I, Section 2, and days like PA Owners Appreciation Day, held on September 6, 2014 and detailed in Part III, Section 2, are focused on raising the profile of HCPNRC to PA residents

in addition to providing them with additional opportunities to race horses bred in the Commonwealth and sired by stallions currently standing in the Commonwealth.

The statistics in Part III (Native Breeding Industry) clearly demonstrate that we are a leader in the Commonwealth in terms of opportunities on a daily basis for Pennsylvania-bred horses to compete for excellent purses. It follows that the majority of those racing PA-bred horses will be PA residents.

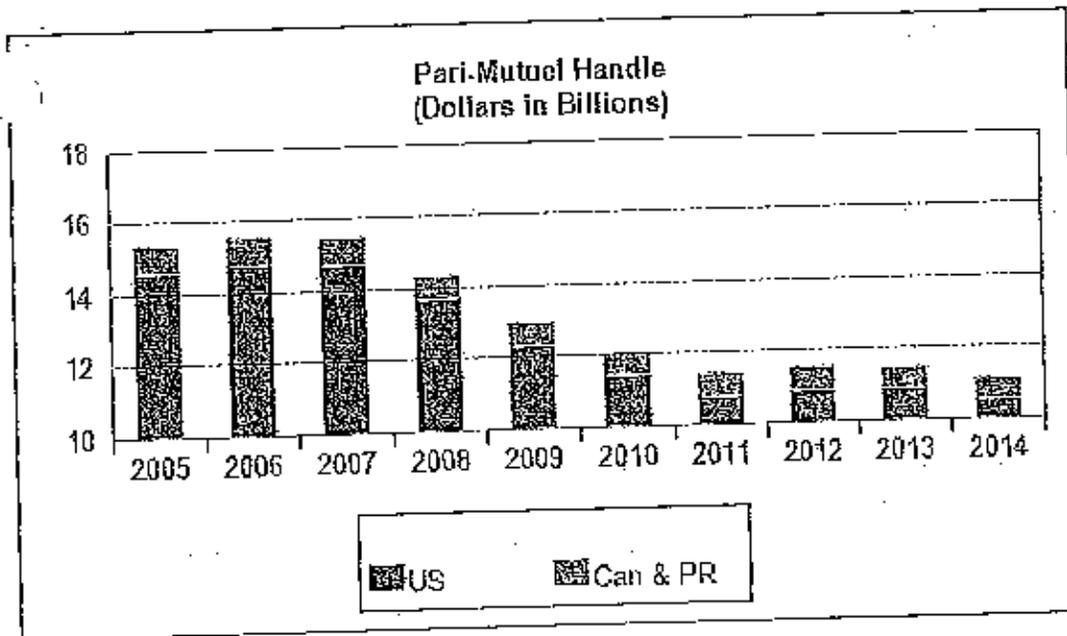

HCPNRC feels that programs designed for horse ownership should also be a priority of the PA-HIBPA and the Pennsylvania Thoroughbred Breeders. Seminars on ownership, meeting individuals such as trainers and breeders, tours of facilities, websites or information brochures on how to become an owner or how to purchase a racehorse are all opportunities that could be explored and have been utilized successfully at other racetracks and jurisdictions. HCPNRC would be happy to work with the PA-HIBPA and the Thoroughbred Breeders on constructive programs to encourage horse ownership in general, and specifically to PA residents.

While we fully understand the intent to focus on the benefits of the racing program at HCPNRC towards existing residents of the Commonwealth, we hope that the Department of Agriculture, the Gaming Board and elected officials take a much broader view of the impact of slot machine gaming, and table games, on the horse racing industry in Pennsylvania.

Out-of-state owners and trainers make purchases in Pennsylvania, pay taxes in the state and employ individuals who work in the state. If their experience is a positive one, these out-of-state residents will expand their commitment to Pennsylvania racing or may soon become permanent residents of the Commonwealth and establish even stronger economic ties to the state. Given HCPNRC's close proximity to Delaware, Maryland, New Jersey, New York, Virginia and West Virginia we are fortunate to have a steady influx of horsemen, owners, breeders and jockeys competing at our facility. This influx is positive for the overall racing program in creating diversity and improving the quality of the racing, which may grow attendance and handle. These out-of-state individuals will also purchase PA-bred horses, stable, board and breed their horses in the state, claim horses at PA tracks from PA-based trainers and owners and provide significant value to the racing programs at all PA racetracks. We view all of these activities as beneficial in the long-term for the Commonwealth of Pennsylvania.

*HCPNRC and Penn National Gaming, Inc. greatly appreciate the opportunity to address both the Pennsylvania State Horse Racing Commission and the Pennsylvania Gaming Control Board in detailing our past, current and future efforts as it relates to the investment and improvement of horse racing at Penn National Race Course and for horse racing in general in the Commonwealth.*

\* Estimated figures

Foal crops are estimated against Reports of Mares Bred, scheduled to be filed by Aug. 1 of each breeding season. Foal registration is to be completed within 12 months of the birth of the foal. However, late registration is available for additional fees, making actual foal crop counts impractical before Dec. 31 of the crop's 2-year-old year, the time by which the vast majority of the foal crop has been registered.

## OCHO OCHO OCHO FACES DEEP CAST IN GRADE 3 PENN MILE

GRANTVILLE, PA - Throughout his spring campaign on the path to the Kentucky Derby, D. P. Racing's Ocho Ocho Ocho always appeared to have a virtual asterisk next to his name as one member of the racing media after another prefaced their comments about the colt by saying he would eventually wind up as a turf runner.

The son of champion Street Sense had some big moments on dirt, winning the \$1 million Delta Jackpot at 2 years old and finishing third in the Grade 1 Blue Grass. Now, after finding the Kentucky Derby too much to handle, the experts get to see if they were right as Ocho Ocho Ocho makes his grass debut as part of a superb cast of 11 lining up for the third running of the Grade 3, \$500,000 Penn Mile at Hollywood Casino at Penn National Race Course.

In short time, the Penn Mile has established itself as one of the premier races in the country for 3-year-old turf horses. Last year's winner, Bobby's Kitten, went on to take the Breeders' Cup Turf Sprint.

Penn National's marquee event highlights a special All-Stakes Pick Four that begins with the first race on the card, the \$150,000 Penn Oaks, followed by the \$150,000 Pennsylvania Governor's Cup, the \$200,000 Mountain View Handicap, and finishing with the Penn Mile.

Post time for the Penn Oaks is 6 p.m., with the Penn Mile scheduled for 7:22 p.m. The four stakes races will be televised live by HRTV, which will begin broadcasting at 5:30 EDT.

For trainer James Cassidy, the background chatter about Ocho Ocho Ocho was easily dismissed; he believes the horse is dangerous on any surface.

"I enjoy reading things, but I don't pay too much attention to it," said Cassidy, whose colt shared a flight into Allentown, Pa., this week with Papacoolpapacool, another West Coast contender in the Penn Mile. "Everybody's got their opinions. I think he'll like the grass. The distance he'll like. I don't have any doubts. He's pretty keen to go. I don't see any negativity."

The speedy Ocho Ocho Ocho, who likes to race on or just off the pace, was pointed toward a turf race one time – the Juvenile Turf Sprint Stakes last November at Santa Anita. The race wound up run on the main track and Ocho Ocho Ocho won by 5 ¾ lengths.

After winning the Delta Jackpot, Cassidy rested his colt nearly four months until the Grade 2 San Felipe in March at Santa Anita, but the colt was not in good enough shape off the layoff to handle the powerful Dortmund. Ocho Ocho Ocho, however, rebounded with a strong performance in the Blue Grass and then went to the Kentucky Derby.

The colt stayed down along the inside throughout the race at Churchill Downs and made a brief move to within six lengths of the lead.

"I got a little excited for a moment, but then he folded up," Cassidy said. "He didn't want to go that far."

Hall of Fame jockey Mike Smith, aboard for the Delta Jackpot victory, reclaims the mount for the Penn Mile.

Ocho Ocho Ocho will exit post position 4 in the Penn Mile, with Papacoolpapacool directly to his inside.

That colt, also based at Santa Anita, for trainer Phillip D'Amato, has been on a tear, winning the one-mile Pasadena Stakes on March 21 and the La Puente Stakes by 4 ½ lengths on April 18.

The La Puente was the fourth victory in eight career starts for Papacoolpapacool, all but one of which came on grass. D'Amato said it was time to leave California to find out where the son of Temple City ranks among the best 3-year-old turf horses in the country. He called the Penn Mile the perfect race to find out.

"The money is good and, more importantly, the timing is good," D'Amato said. "I decided if it was time to step out and race against horses from the East and see where we stand, this is the spot. He handles his foes pretty easily in his races [at Santa Anita], and he's just been training lights out. It made my decision to ship out there easy to test the waters."

Horses are coming from all parts of the country for the race. The undefeated Granny's Kitten, 2-for-2 for trainer Mike Maker, has been working at the Churchill Downs Training Center. So has front-running stakes winner Tuba. High Noon Rider and My Point Exactly ship in after good performances in Florida. Force the Pass trains on a farm in New Jersey. Night Prowler is based at Belmont Park and Gallery is at Monmouth.

"This time of year, horses come from all over," said trainer George Weaver, who sends out High Noon Rider. "That's what you get when you put up a half-million dollars."

Night Prowler, trained by Chad Brown, is a two-time Grade 3 winner, having taken the Dania Beach on firm ground this past winter at Gulfstream Park, and the Transylvania on soft ground April 15 at Keeneland. In his past three starts, the gelded son of Giant's Causeway has only been beaten once, in the Grade 3 Palm Beach, when steadied at the eighth pole.

"He's a nice consistent horse, and this will be a big step for him, but we're going to take a chance," Brown said. "I don't know if I'd call it a prep for anything. We're taking it one step at a time with this horse."

Woodwin W and Force the Pass square off again after finishing three-quarters of a length apart when 1-2 in the James W. Murphy Stakes on the Preakness Day undercard at Pimlico. Woodwin W stretched his record to 4-for-4 lifetime for trainer Jamie Ness, while Force the Pass had a two-race winning streak snapped that included a victory in the Cutler Bay Stakes at Gulfstream Park.

"That was my plan, to run at Pimlico," said Force the Pass's trainer Alan Goldberg, "and if he came back well we'd run in the Penn Mile. So far, so good."

High Noon Rider finished second in the Cutler Bay and then delivered an outstanding effort when 2 ½ lengths clear in an allowance victory April 19 at Gulfstream. Weaver believes the late-running son of Distorted Humor is set for another top effort.

"I feel good coming into the Penn Mile," he said. "Since we've been back on the turf the past few starts, he's done well. There are horses in there that have some ability. I think our horse is going to step up. After the last start at Gulfstream, I told the owner I wanted to run in this race. It's not like we just came up with this idea; it's been set in stone. He's worked really well going into it, and we're ready to go."

My Point Exactly closed out his 2-year-old season winning by 10 ½ lengths in a dirt mile maiden race at Gulfstream and then scoring on the grass in the Sunday Silence Stakes at Louisiana Downs with a late rush at the Penn Mile distance.

In his 3-year-old debut, the gray gelding was ambitiously placed in the Florida Derby, and after being bumped at the start, was no match for winner Materiality, one of the top-rated young horses in the country.

In his most recent start, My Point Exactly cut back to a mile on the dirt at Gulfstream and finished a good third to the multiple stakes winner Mr. Jordan. Now, trainer Bill Kaplan returns him to grass.

"He's really a two-turn horse," Kaplan said. "The [one-turn] mile race last time set up right for us thinking about this one coming up. I think he can actually run on anything. He should improve off his last race."

Comanche's Storm, second by a neck in the English Channel Stakes at Gulfstream Park after a wide journey in his most recent start; and Gallery, a two-time winner on the grass at the distance, complete the field.

The Penn Mile is a Penn Gaming Racing Challenge Event, a year-long incentive competition that offers bonuses such as waived entry fee nominations and travel costs to leading owners, trainers and riders in select PGNI events.

## BEN'S CAT BACK FOR FOURTH GOVERNOR'S CUP

GRANTVILLE, PA - When Ben's Cat returned to the races April 17 after five months of rest to see if he could continue his magnificent career at age 9, there were whispers the stakes machine may not have it anymore after a three-length defeat to Bold Thunder in a five-furlong turf allowance race.

Recent Hall of Fame inductee King Leatherbury, the Cat's breeder, owner and trainer, wasn't buying it. The greatest runner he's ever had – with a record of 29 wins from 47 starts, 24 victories in stakes races – was at a distinct disadvantage in that race as Bold Thunder was the lone speed horse in a field of five.

When the two met again on Black-Eyed Susan Day at Pimlico in the Maryland Turf Sprint, other speed horses made Bold Thunder run faster early, setting up Ben's Cat patented late kick, and the old iron horse got up to win by a neck.

Now, Ben's Cat and Bold Thunder will resume their rivalry Saturday in the 45th running of the \$150,000 Pennsylvania Governor's Cup, a five-furlong turf sprint for 3-year-olds and up that is one of the main support races for the prestigious \$500,000 Penn Mile at Hollywood Casino at Penn National Race Course.

The races are part of a special All-Stakes Pick Four that begins with the first race on the card, the \$150,000 Penn Oaks, followed by Governor's Cup, the \$200,000 Mountainview Handicap, and finishing with the Penn Mile.

Post time for the Penn Oaks is 6 p.m., with the Penn Mile scheduled for 7:22 p.m. The four stakes races will be televised live by HRTV, which will begin broadcasting at 5:30 EDT.

Leatherbury, 82, is a pragmatist when it comes to racing, even when it talking about his amazing Ben's Cat.

"Sooner or later, he has to have a turning point when he starts to go down, and it hasn't happened yet," Leatherbury said. "He had a couple of things against him that day in the comeback. Lone speed, and he's never run a real big race first time back."

Ben's Cat has run in the Governor's Cup three times, winning in 2011, tying for fourth the following year and suffering a horrible trip when third in 2013.

In that most recent start, Ben's Cat raced close up early until another horse bore out badly on the turn, forcing Ben's Cat to check sharply and drop well back. Yet he came flying at the finish.

"We got crucified," Leatherbury said. "If I remember properly, the horse got carried way back and he still came on, remarkably, to run third."

Last year, Leatherbury tried Ben's Cat at six furlongs on the grass in the Grade 3 Jaipur and watched his horse finish fourth as the beaten favorite. A thorough handicapper, Leatherbury considered the Jaipur again this year but ultimately decided the Governor's Cup suited Ben's Cat better.

"We did a lot of research on both races," Leatherbury said. "He would have had a good chance to win the New York races, but I like the five furlongs better. The five-furlong race, you have a faster pace that usually softens up the front-runners."

The Pennsylvania Governor's Cup drew a field of seven, and while Bold Thunder, third in the race last year, figures to make the lead, other fast horses are signed on.

Fabulous Kid, trained by Tim Ice, raced sharply on the front end this past winter at Oaklawn Park and recently scored a three-length victory in an allowance at Parx Racing. Those races came on dirt.

Pennsylvania-bred Last Heartbreaker and Snow Leopard also have been running on the lead in their dirt races and now will make forays onto the grass.

While Ben's Cat figures to be a strong favorite, he will face, along with Bold Thunder, the accomplished 4-year-old closer Amelia's Wild Ride, who he beat by four lengths in the Maryland Turf Sprint. Amelia's Wild Ride, however, won the Gulfstream Park Turf Sprint this past winter and has been training sharply at Parx Racing.

Grateful Nation, fourth in the Maryland Turf Sprint, completes the field. The 5-year-old Great Notion gelding was one of the horses trainer Dylan Smith inherited when her boss, Mid-Atlantic training legend Dickie Small, died in April last year.

Grateful Nation will have the services of top rider Javier Castellano.

"He's one of the coolest horses I've been around," said Smith, who is based at Laurel Park. "He's got the most unique personality, and he's such a goofy boy in the morning, but when it's time to race, he's got his game face on."

"Obviously, Ben's Cat has beaten him a few times, so I'm not necessarily thrilled about having to run against him, but he's been running against some of the best turf sprinters around here, and 'Nate' hasn't made a fool of himself by any means."

The Penn Mile is a Penn Gaming Racing Challenge Event, a year-long incentive competition that offers bonuses such as waived entry fee nominations and travel costs to leading owners, trainers and riders in select PGN1 events.

## KID CRUZ FACES TEN IN \$200,000 MOUNTAINVIEW HANDICAP

GRANTVILLE, PA - After Kid Cruz found his form with two easy stakes victories in Maryland in the spring of his 3-year-old year, trainer Linda Rice didn't hesitate to match the son of Lemon Drop Kid against some of the best horses in the country.

The New York-based trainer raced Kid Cruz in the Preakness Stakes, and then he won the Grade 3 Dwyer, came in third behind Wicked Strong and Tonalist in the Grade 2 Jim Dandy, and finished fourth in the Grade 1 Travers. A heady schedule, to say the least.

After two warm-up races after a six-month race, Rice now wants to find out what kind of runner Kid Cruz is going to be this year – one of the best or one of the rest.

The quest begins in earnest Saturday against 10 other runners in the \$200,000 Mountainview Handicap, a 1 1/8-mile dirt race for 3-year-olds and up at Hollywood Casino at Penn National Race Course.

The Mountainview is part of a special All-Stakes Pick Four that begins with the first race on the card, the \$150,000 Penn Oaks, followed by the \$150,000 Pennsylvania Governor's Cup, the Mountain View, and finishing with the Penn Mile.

Post time for the Penn Oaks is 6 p.m., with the Penn Mile scheduled for 7:22 p.m. The four stakes races will be televised live by HRTV, which will begin broadcasting at 5:30 EDT.

"This next race will be a real tell for us: Are we going to the more prestigious races and develop stallion value for him, or spotting him around the country?" Rice said. "There are a lot of big events later in the summer – like the Whitney – that we have in the distant future. The last race [a second-place finish April 1 in an optional-claiming race at Aqueduct] was a step in the right direction, and we need to continue that forward momentum to get to those goals. Hopefully, this will be a big steppingstone, this race at Penn National."

It won't be easy as Kid Cruz faces six other stakes winners, four of them who have triumphed in graded company.

Albano, who drew the outside post for trainer Larry Jones, won the Grade 3 Pegasus last year by 6 ½ lengths at Monmouth Park, using that race as a launching pad to a second-place finish in the prestigious Grade 1 Haskell Invitational behind eventual Breeders' Cup Classic winner Bayern.

In his most recent start, Albano was beaten just a half-length when second in the Grade 2 New Orleans Handicap on March 28 at the Fair Grounds.

East Hall, who won the Ohio Derby and Grade 2 Indiana Derby last year for trainer Bill Kaplan, enters off a series of races against top-class runners this past winter in Florida.

The 4-year-old gelding finished second by a neck in the Sunshine Millions Classic in January at Gulfstream Park and then finished fifth in both the Grade 1 Donn Handicap and Grade 2 Gulfstream Park Handicap. In his most recent start, the Grade 3 Skip Away, he was fourth behind Commissioner, who came back May 16 to take the Grade 3 Pimlico Special on Preakness Day.

"He's a nice horse; he didn't tail off," Kaplan said. "Look where he was running: He ran in the Donn Handicap and the Gulfstream Park Handicap and got beaten single digits [lengths] in both races. The last race, I wasn't happy with so we have him a little time. He's an iron horse and finishes well wherever he runs. If he can run back to his Indiana Derby, we can do something here."

When on his game, the 5-year-old Golden Lad has been one of the toughest horses in the south the past two years, putting together four straight wins that culminated in a victory in the Grade 3 Razorback Handicap in March 2014 at Oaklawn Park, and scoring this past winter over 2014 Preakness runner-up Ride on Curlin in the Essex Handicap.

In his most recent start, Golden Lad was just beaten out for the show spot in the Grade 2 Oaklawn Handicap.

While his 3-year-old turf horse Papacoolpapacool is one of the favorites in the Penn Mile, Santa Anita-based trainer Phillip D'Amato warned that his Nowalking should not be ignored in the Mountainview.

Although he didn't break his maiden until his eighth start, the 4-year-old son of Hard Spun came right back to sharply win an allowance race on May 2.

"He's an improving horse," D'Amato said. His last two races he had numbers that would put him in the mix for stakes races. His confidence level is sky high right now. I want to see how he stacks up with horses over there [on the East Coast]. We're taking a shot with him."

Street Babe, winner of the Grade 3 Mineshaft in February at the Fair Grounds; multiple stakes winner Faarhan; multiple stakes winner Edge of Reality; stakes-placed Cousin Stephen; and allowance winners Very Lucky and Golden Glint complete the field.

## RED SASHAY, QUALITY ROCKS IN REMATCH IN PENN OAKS

GRANTVILLE, PA - After a strong 2-year-old season in which she won a turf stakes race at Gulfstream Park, trainer Jane Cibelli couldn't have found a tougher spot for her Red Sashay to make her 3-year-old debut.

The Sweetest Chant Stakes in January at Gulfstream Park attracted a tremendously talented field, including winner Consumer Credit, who went on to finish second in the Grade 3 Florida Oaks and first in a stakes race at Aqueduct; Florida Oaks winner Quality Rocks; and Miss Temple City, who recently won the Hilltop Stakes at Pimlico and next will run at Royal Ascot.

Cibelli gave Red Sashay time off after she finished a close-up sixth in the race, and when she returned May 2, she closed fast to win the Honey Ryder Stakes at Gulfstream. With that victory under her belt, Red Sashay will now once again take on Quality Rocks in the \$150,000 Penn Oaks, a one-mile turf race for 3-year-old fillies Saturday at Hollywood Casino at Penn National Race Course.

The Penn Oaks is the opening race on the prestigious Penn Mile race card and the first leg of a special All-Stakes Pick Four that continues with the \$150,000 Pennsylvania Governor's Cup, the \$200,000 Mountainview Handicap, and culminates with the \$500,000 Penn Mile.

Post time for the Penn Oaks is 6 p.m., with the Penn Mile scheduled for 7:22 p.m. The four stakes races will be televised live by HRTV, which will begin broadcasting at 5:30 EDT.

"We ran her down at Gulfstream and I hooked Chad Brown's Consumer Credit, and it was a very tough race," Cibelli said. "She's a big, tall filly, and we said let's give her time to mature, and it's really paid off. Last race [the Honey Ryder], she raced wide and came home in 23 [seconds] and change – really well. We have high hopes for her."

Red Sashay, a daughter of Big Brown who will be ridden for the first time by Jose Ortiz, will have to deal once again with Quality Rocks, trained by Hall of Famer Bill Mott.

The daughter of Rock Hard Ten raced last fall in the Breeders' Cup Juvenile Filly Turf, weakening to 10th at the finish, but has come back smartly this year with the Florida Oaks victory and runner-up finishes in the Sweetest Chant and Grade 3 Edgewood at Churchill Downs.

Trainer James Cassidy will send out Prize Exhibit, who began her career in England and finished fourth in the Breeders' Cup Juvenile Filly Turf.

She won an allowance in her debut as a 3-year-old and followed with back-to-back fourth-place finishes in graded stakes races. Both of those races were at 1 1/8 miles.

"It looked like she didn't want to go that far," Cassidy said. "She's going back to a mile, and I think she'll appreciate it."

B Rockett, Pangburn, Lady Bling, Strict Compliance and Gypsy Judy complete the field.

\*\*\*

\*\*\*

### FORCE THE PASS TAKES PENN MILE; HANDLE RECORDS SET

In his most recent start, on Preakness Day at Pimlico, Force the Pass recovered from a troubled trip to miss winning the James W. Murphy Stakes by three-quarters of a length.

On Saturday night, with far more on the line, Force the Pass got through this time with a furious late charge to win the third running of the Grade 3, \$500,000 Penn Mile for 3-year-olds at Hollywood Casino at Penn National Race Course.

Ridden for the second time by Joel Rosario, the son of Speightstown out of the multiple graded stakes-winning mare Social Queen, was caught behind horses coming off the far turn, but when he finally found room he surged powerfully to overhaul leader Night Prowler to win by a head.

Granny's Kitten was three-quarters of a length back in third followed by Ocho Ocho Ocho, My Point Exactly, High Noon Rider and Papacoolpapacool in the field of 11. The top eight runners of the field finished less than two lengths apart.

The race capped a record-shattering card for the fledgling Penn Mile, which in its short history has quickly become one of the most important turf races for 3-year-olds in the country.

The all-sources wagering total of \$3,827,158 set a record for the highest single card handle in track history, while the \$1,250,969 bet on the Penn Mile itself established a new standard for a single race.

Owned and bred by Richard Santulli's Colts Neck Stables, Force the Pass ran the mile in 1:34.03 under Rosario.

Trainer Alan Goldberg, who watched the race at home on television in Oakhurst, N.J., was thrilled with the performance.

"He's really a pretty good horse; we thought highly of him from Day 1," Goldberg said. "He ran hard in the Pimlico race, and that was the first time he every really ran hard. The first time he ran, he had no idea what was going on. The second time, he beat the field from the quarter pole to the eighth pole. And same with the next race, that little stakes [in Florida]."

"I had his mom, Social Queen, she was a graded winner."

The Penn Mile began with long-shot **Comanche's Storm** cutting a fast pace of 46.42 for the first half-mile, pressured by another long-shot, **Gallery**. Six furlongs into the race, the pace-setters were done has a swarm attacked the front. **Night Prowler** went four wide around the far turn and took the lead with a furlong to go, yet **Force the Pass** nailed him on the line.

"I was between horses the whole time," Rosario said. "It's not easy sometimes when you have nowhere to go. But he responded and he's a nice horse."

The winner paid \$20 for a \$2 win bet as the 9-1 sixth choice.

**Force the Pass**, who also won the **Cutler Bay Stakes** on April 1 at Gulfstream Park, has now won three times in five career starts. Goldberg said he would be under consideration for the **Grade 1, \$1.25 million Belmont Derby Invitational** at 1 1/4 miles on July 4.

### MOUNTAINVIEW HANDICAP: GOLDEN LAD DOMINATES

**Golden Lad** turned a spirited speed duel with long shot **Very Lucky** into a dominating five-length victory to take the \$200,000 Mountainview Handicap for 3-year-olds and up.

Owned by Robsham Stables and trained by Eclipse Award-winning trainer Todd Pletcher, the 5-year-old son of **Medaglia d'Oro** ran the 1 1/8 mile dirt race in 1:49.95 for the third stakes victory of his career.

**Kid Cruz**, last in the field of 11 and more than 13 lengths behind the leaders after a half-mile in 47.05 seconds rallied eight wide powerfully on the far turn to finish second, three lengths in front of **Nowalking**, who also came from well back.

**Golden Lad** shot fast from the gate but relinquished the lead to **Very Lucky**, who cut through an opening quarter-mile in 23.13 seconds and a half in 47.05. **Very Lucky** had **Golden Lad** pinned down on the inside, but six furlongs into the race, **Golden Lad** edged clear.

When they hit the stretch, **Golden Lad** began to widen his lead and won driving under jockey **Javier Castellano**.

"I was concerned a little bit with the horse right next to me tightening me all the way in the race," Castellano said. "But my horse did so well today. He didn't mind another horse right next to him. To be honest, I didn't expect to be on the lead, but he broke so well at the gate. I used my own judgment and took it from there. I didn't want to get into a duel because it's a mile and an eighth. It's not a short race. But, fortunately, the horse ran so well."

The win was the seventh in 14 career starts for **Golden Lad**, who also took the **Essex Handicap** in February at **Saratoga**. **Golden Lad** and last year won the **Grade 3 Razorback Handicap** at the Arkansas track.

## PENNSYLVANIA GOVERNOR'S CUP: AMELIA'S WILD RIDE DENIES BEN'S CAT

Amelia's Wild Ride rebounded from his recent defeat at the hands of Ben's Cat at Pimlico to take the 45<sup>th</sup> running of the \$150,000 Pennsylvania Governor's Cup by a nose in a spectacular three-way photo finish.

The winner, a 4-year-old son of D'Wildcat, withstood the late rush of the renowned 24-time stakes winner to win by a nose. Stubborn pace-setter Bold Thunder was a neck back in third in the field of seven.

Amelia's Wild Run had won the Gulfstream Park Turf Sprint this past winter and finished to the top turf sprinter Power Alert in another stakes race. In the Maryland Turf Sprint on May 15 at Pimlico, however, he turned in an uncharacteristic performance, lacking his usual late kick and placing third.

For the Governor's Cup, trainer Ramon Preciado switched to jockey Jose Lezcano, who won the stakes race in Florida, and the change paid off.

Amelia's Wild Ride tracked Bold Thunder in second through a fast opening quarter-mile in 21.89 seconds and a half in 43.73. Despite being forced out by the tiring but game leader in the lane, Amelia's Wild Ride came with a relentless charge to win the five-furlong turf sprint in 55.20 seconds, while Ben's Cat came flying on the outside.

Lezcano said he didn't think he had won, but was impressed by the performance of his horse.

"He gave me an unbelievable race," he said. "He's a very good colt. I think he always runs good for me. He jumped in the bit right away and went comfortably. We I asked, he gave me a good kick."

"I think the rider made the difference as compared to the Pimlico race," said Preciado. "He relaxed him a very good way early and came and got him. I was concerned a little bit, but I know that horse. He likes run against the bit, which he did, and he doesn't care after that."

This was the second time Preciado, who is based at Parx Racing, has sent out a horse that has defeated Ben's Cat. El Churruca turned the trick in 2011 in the Parx Dash Handicap.

## PENN OAKS: STRICT COMPLIANCE EDGES QUALITY ROCKS

Klaravich Stables and William Lawrence's Strict Compliance wore down even-money favorite Quality Rocks in the final strides to win the \$150,000 Penn Oaks for 3-year-old fillies going a mile on the turf in 1:34.83.

Ridden by Javier Castellano, the daughter of Into Mischief, trained by Chad Brown, rated in third place while Quality Rocks tracked long-shot leader Gypsy Judy through a half-mile in 48.81 seconds and six furlongs in 1:12.42.

On the turn for home, Gypsy Judy refused to fold as Quality Rocks struggled to reach even terms. Strict Compliance came charging on the outside to win by a half length with Gypsy Judy a neck behind Quality Rocks in third.

The victory was the third in four career starts for Strict Compliance, who went off at 2-1 in the field of five.

"I didn't see much pace in the race, and I didn't want them to get away too far from my horse," Castellano

said afterward. "I wanted to put her in the right spot to win the race. That's exactly what I did; I followed the best horse in the race [Quality Rocks], and turning for home she responded very well."

## PENNSYLVANIA GOVERNOR'S CUP QUOTES

"He gave me an unbelievable race. He's a very good colt. I think he always runs good for me. He jumped in the bit right away and went comfortably. When I asked, he gave me a good kick. I was worried a little bit. I knew No. 4 (Ben's Cat) comes running. I had to hold on, you know? He pushed off again because he felt the other horse on the outside."

- Jose Lezcano, jockey of Pennsylvania Governor's Cup winner Amelia's Wild Ride

"I think the rider made the difference as compared to the Pimlico race. He relaxed him a very good way early and came and got him. I was concerned a little bit, but I know that horse. He likes run against the bit, which he did, and he don't care after that.

- Ramon Preclado, trainer of Pennsylvania Governor's Cup winner Amelia's Wild Ride

### PENN MILE QUOTES

"I followed the 9 horse. It looked like it was kind of tough for me the whole way. Every time I tried to make a move, it was always somebody in the way, but he got the job done. I was between horses the whole time. It's not easy sometimes when you have nowhere to go. But he responded and he's a nice horse."

- Joel Rosario, jockey for Penn Mile winner Force the Pass

"Yeah, it was great. I watched it home on TV. We thought highly of him from Day 1. He ran hard in the Pimlico race and that was the first time he every really ran hard. The first time he ran, he had no idea what was going on. The second time, he beat the field from the quarter pole to the eighth pole. And same with the next race, that little stakes."

"He doesn't train like he just wants to go a mile. He trains like he wants to go all day. He's kind of a big long horse with a big long stride. We have a reason to take a million and 250 tries in five weeks. He got banged around the whole way."

- Alan Goldberg, trainer of Penn Mile winner Force the Pass

*The World Renowned Budweiser Clydesdales  
are coming to*

# HOLLYWOOD!

**FRIDAY, JUNE 19 & SATURDAY, JUNE 20**

The eight-horse hitch will be harnessed and hitched to the famous red beer wagon and parade down the stretch at Penn National shortly before live racing on June 19 and 20. First post is at 6PM, and during the live racing programs on both evenings, the Clydesdales will be situated on the apron area for photo opportunities with fans.

[hrtv.com/racing/penn-national/](http://hrtv.com/racing/penn-national/)

The screenshot shows a website interface for HRTV. At the top, there are navigation links: WATCH NOW, SCHEDULE, RACING, WESTERN, ENGLISH, SUBSCRIBE, and LOGIN. Below these are social media icons for Facebook, YouTube, and Twitter, along with a search bar labeled 'Search Videos'. The main header features the HRTV logo and the text 'THE NETWORK FOR HORSE SPORTS'. Below the header is a large banner for 'HOLLYWOOD Casino' with the tagline 'AT THE WOODS, WE GET COZY'. The main content area is divided into two sections. The top section is a video player showing a horse race with the text 'PENN NATIONAL RACE COURSE' and 'HOLLYWOOD CASINO'. The bottom section is a tweet from Hollywood Casino (@HollywoodCCTA) dated Nov 26, announcing a 'Black Friday Mega Stack Tournament @ 12PM. \$500 NLH + \$200 Bounty. 30 K starting stack. Best tournament structure around. Come play poker.' The tweet includes a small image of a horse and the word 'Expense'.

### > Kentucky Derby Future Wager Underway

It's not too early to play the 2015 Kentucky Derby! Kentucky Derby Future Wager Pool #1 begins at 12PM ET on Friday and continues through Sunday at 6PM ET. Win and Exacta wagering is available.

### > Gulfstream Park West Closes Sunday

Sunday is closing day at Gulfstream Park West, so you'll want to keep an eye on potential mandatory payouts. Racing in Florida moves to Gulfstream for their Champions Meet beginning December 6.

### > Penn National Holiday Festival on HRTV

Join HRTV for coverage of Penn National's Holiday Racing Festival on Saturday, November 29 at 6pm ET. Their card is highlighted by the \$200K Fabulous Strike Handicap and the \$100K Swetara Stakes.

### > Gold Cup Anchors Huge Hawthorne Card

Saturday's races from Hawthorne include the \$250,000 G2 Hawthorne Gold Cup, which attracted a strong field that should ensure a great day of wagering. First post is 2:50PM ET.

### > Carulli's Horses to Watch

Former Laurel and Pimlico morning-line maker, simulcast host and harness racing expert, Frank Carulli, keeps an eye out for horses ready to find the winner's circle in their next 2 starts.

### > Portland Meadows Opts for Tuesdays

One of the best kept secrets in horse racing, Portland Meadows, has switched up its Racing Calendar and will now host live racing each Tuesday afternoon beginning at 3PM ET.
