The written Program of Veterinary Care (PVC) must be completed by all Pennsylvania Kennel Class C license holders.

The attending veterinarian shall establish, maintain and supervise physical examination and vaccination schedules; protocols for disease control and prevention; pest and parasite control; as well as nutrition and euthanasia for all dogs on the premises of the licensee / kennel owner. It is preferred that such programs include regularly scheduled visits to the premises by the veterinarian to monitor animal health and animal husbandry practices. A copy of the written PVC shall be maintained in the kennel records. All dogs over 12 weeks of age shall be examined by a veterinarian at least once every six months. During the examination, the veterinarian shall use appropriate methods to prevent, control, diagnose and treat diseases and injuries. [Act 119 - 207(i)(8)].

I have read and completed this Program of Veterinary Care, and understand my responsibilities.
