**SUBCOMMITTEE RESEARCH UPDATED**
Mr. Knapp discussed the pre-proposal that was submitted from Dr. Michela Centinari, Assistant Professor of Viticulture with Penn State. The project would involve planting a new research vineyard that can be used for viticulture and enology research projects. The 0.5 acre vineyard block would be established at the Lake Erie Regional Grape Research and Extension Center located in North East, PA. Total cost would be around $7,000 ($2,100 for the cost of vines and $4,900 for site preparation, planting and bird netting). Board members discussed Dr. Centinari’s proposal as well as Dr. Crassweller’s wine grape cultivar trials. It was decided to add this proposal/project to the agenda for the November board meeting so the board can ask Dr. Centinari questions regarding this project.

**HACC**
Mr. Mazza stated that he was contacted by Mr. Bob Green after the last board meeting and HACC was going to provide information/answers to the questions that the board had regarding their current proposal. No information was received by Mr. Mazza or the Department to date, therefore, the board has decided not to fund this project for 2014-2015.
GRANT PROPOSAL TIMELINE
Board members discussed the grant proposal timeline and the comments/suggestions from Ms. Gardner. Ms. Snyder informed board members that permission does not need to be obtained from a PI in order to distribute or publish the PI’s research reports – this information was passed on to Ms. Snyder from Mr. Duer. Ms. Snyder will reach out to Penn State to see if the Department and the Program can have one main contact person for proposals. The Department will publish the timeline on the website.
