

**TO:** Owners and Inspectors of Giant Wheels manufactured by Chance  
**FROM:** Joseph G. Filoromo, Supervisor  
**SUBJECT:** **SAFETY ALERT CHANCE GIANT WHEEL**  
**DATE:** October 10, 2019

---

Owners and inspectors of Giant Gondola Ferris Wheels manufactured by Chance (*Chance Rides*) are required to contact the manufacturer concerning the proper installation of the pins (and R-clips) relating to the way the Tie Rods are attached to the wheel spoke (at both ends near the gondola).

The manufacturer has provided information to this office that the pins in these areas should be pointed outward (away from the center of the wheel). Owners are instructed to immediately contact the manufacturer and confirm the “pinning” information for their specific make and model Ferris Wheels.

**IMMEDIATELY CONTACT THE MANUFACTURER FOR GUIDANCE IN PROPER INSTALLATION OF THE PINS & R-KEYS.**
