Handle and neck stained but clean.

Inside stained but rinsed clean.

Inside is clean and dry.

Not Acceptable

Dried formulation on container.

Dried formulation on thread.

Bottom is caked with dried residue.

Liquid residue in container.

All recycling participants must abide by the following guidelines:

1. Only #2 HDPE plastic pesticide containers are acceptable in the PPCR program, including crop oil, adjuvant, surfactant, foaming and anti-foaming agent jugs and bottles.
2. Containers must be triple-rinsed and free of all pesticide residue, fully drained, and not cut up or crushed.
3. Label booklets, lids, foil seals, dirt, gravel, etc. must be removed.
4. #2 plastic pesticide drums are acceptable, but must be prepared as follows:
 - 5 & 15 gallon drums—Cut in half lengthwise
 - 30 & 55 gallon drums—Cut in quarters lengthwise(Cutting drums in this manner facilitates proper cleaning and inspection and reduces storage area.)
5. Applicators may recycle containers at participating PPCR locations during **business hours only**. Go to www.agriculture.state.pa.us (search *Programs*, then *Plastic*) to find a site near you. **DO NOT leave containers at the site after hours.**

Rinse and cut drums in this manner:

1. Cut opening in edge of drum to allow proper rinsing and drainage.

2. When clean, cut in quarters lengthwise.
