Resource Enhancement and Protection (REAP) Program Guidelines
FY 2018

Introduction

- Act 55 of 2007 created the Resource Enhancement and Protection Program (REAP). REAP allows farmers and businesses to earn Pennsylvania state tax credits in exchange for implementing “Best Management Practices” (BMPs) on agricultural operations that will enhance farm production and protect natural resources. All terms defined in Act 55 and used throughout these guidelines may be found in Attachment 9.
- The program is administered by the State Conservation Commission (Commission) and the tax credits will be granted by the Pennsylvania Department of Revenue.
- Any individual or business who is subject to taxation by the Commonwealth of Pennsylvania under the following state taxes is eligible to participate in REAP: Personal Income Tax, Corporate Net Income Tax, Capital Stock and Franchise Tax, Bank Shares Tax, Title Insurance Company Tax, Insurance Premiums Tax, and Mutual Thrift Institutions Tax.
- Eligible applicants may receive either 50% or 75% of project costs as state tax credits for up to $150,000 per agricultural operation. The amount of tax credit available to a recipient is dependent on the type of BMP implemented. See Attachment 1 for a list of REAP Eligible BMPs.
- Please note the Commission has interpreted the $150,000.00 funding limitations of this program with regards to entities with significantly similar organizational structures or which utilize substantially common management or production resources. These entities will be considered a single “agricultural operation” for purposes of REAP tax credits. For additional information, please see Attachment 10.

Program Eligibility Requirements

1. An agricultural operation that is an applicant for the REAP Tax Credit Program for agricultural BMP or equipment must first have in place the following:

   i) A current Conservation Plan or Agricultural E&S Plan for all acres that are under their management controlled (owned/leased/utilized) in the year that they are applying for REAP Tax Credits. The applicant must be on-schedule for full implementation of the plan; and

   ii) A current Nutrient Management Plan or Manure Management Plan (as required by law) for all acres under their management control if they generate/utilize manure and/or other organic sources of plant nutrients (e.g. biosolids) in the program year that they are applying for REAP Tax Credits. The applicant must be on-schedule for full implementation of the plan.

2. If you do not have a current Conservation Plan/current Agricultural E&S Plan on an agricultural operation for all acres plowed and tilled in the program year that you are applying, and/or a current Nutrient Management/Manure Management Plan (as required by law), your application must include the development of these plans. No credits will be awarded for any other eligible BMP or equipment until those plans are complete.

3. If you are an agricultural operation with animal concentration areas (ACAs) on any portion of the agricultural operation under your management control, then you must first implement all best management practices necessary to abate storm water runoff, loss of sediment, loss of nutrients, and runoff of other pollutants from these animal concentration areas before receiving any tax credits for any other eligible BMP or equipment (other than planning). Any REAP-approved BMPs necessary to properly treat an ACA under your management control are eligible for REAP tax credits.

4. If you have an approved Conservation Plan/Agricultural E&S Plan for all acres plowed and tilled and an approved Nutrient/Manure Management Plan (if required) in the program year that you are applying; and if all
BMPs necessary to properly treat an ACA under your management control are fully implemented; then you may receive REAP tax credits for any REAP eligible practice or REAP eligible equipment necessary to control nutrient or sediment pollution on your agricultural operation.

Other Program Requirements and Conditions

No tax credit will be provided for a publicly funded portion of a project; however, any portion of an eligible project paid by a farmer (“out of pocket” expenses) may be included in a REAP application.

Tax credits will be awarded to projects completed after October 23, 2007, but not after the project’s life span as defined in Attachment 1 have expired.

The tax credit must be returned if the practice is not maintained and managed for the life span of the practice. Life spans established by the Commission for specific practices are found in Attachment 1. If the BMP is not maintained for the required period, the owner of the property upon which the project exists shall return to the Department of Revenue the full amount of the tax credit originally granted.

If the recipient of a tax credit provides prior written notification to the Commission that the recipient will be unable to maintain a BMP due to the sale of the property, cessation of an agricultural operation or other factors, the Commission may direct the Department of Revenue to prorate the amount of the tax credit that shall be returned based on the remaining lifespan of the BMP in question.

The Commission has established a policy on the trading of no till planting and low disturbance manure incorporation equipment before the established lifespan of the equipment has expired. See Attachment 12 for more information on this policy.

The following are considered eligible costs of a project to which a tax credit may be applied:

1. Project design engineering and associated planning
2. Project construction or installation – including labor provided by the applicant
3. Equipment, materials and other components of eligible projects
4. Post construction inspections
5. Interest payments on loans for project implementation for up to one year

Any of the above costs for services that may be provided by a Conservation District or private sector technical service provider through a fee or charge are eligible costs and may be included in the REAP application. These services are eligible for 75% of eligible costs. REAP application/verification fees are not eligible costs nor are fees charged by consultants to fill out a REAP application.

The Commission reserves the right to deny an application for any BMP and/or equipment if the cost is not within reasonable and fair market value as determined by the Commission. The Commission reserves the right to deny an application for any BMP and/or equipment that does not meet the intent of the standards set forth by the Commission.

There are three ways for applicants to participate in the REAP Program.

1. Farmers and landowners can use the credits directly to pay your PA tax bill. REAP tax credits will reduce, dollar for dollar, the amount of state tax you owe. You may use your tax credit for up to fifteen years from the date the tax credit is awarded by the Department of Revenue, applying the credit on your annual taxes incrementally until you have depleted the credit.

2. You may sell your tax credits to another Pennsylvania taxpayer after: 1.) claiming the credit against your PA income tax liability for the year in which the credit is issued, 2.) waiting 1 calendar year (from the credit’s date of issuance). Individuals who have been awarded REAP credits may arrange the sale of the credit to any eligible
buyer. Also, a list of private brokers who arrange the sale of tax credits is found in Attachment 8. The guidelines and application for the sale of REAP tax credits are available on the REAP webpage or by calling the Commission at 717-787-8821.

3. You may work with a sponsor that will help finance the BMPs on an agricultural operation. The farmer will be compensated by the sponsor for making improvements and the sponsor will receive the tax credit. A “sponsor” is defined in Attachment 9. Typical examples of sponsors include: banks and other lending institutions or businesses. For projects involving a sponsor, the Commission requires a signed written agreement between the sponsor (applicant) and the owner/operator of the property on which the project will be completed, certifying that the operator will comply with all the requirements associated with the REAP tax credit. A sample Sponsor agreement form is available upon request.

**Application, Certification and Approval Procedure**

REAP applications received in FY 2017 which were not considered because credits were unavailable, will be reviewed for the upcoming program year (FY 2018) prior to accepting new applications.

**New Applications**

Applications for COMPLETED and/or PROPOSED projects will be accepted beginning August 6, 2018. Applications may be delivered in person, via US Postal Service, or via a private carrier to the Commission office at the following address: Applications may be delivered in person, via US Postal Service, or via a private carrier to the Commission office at the following address:

**REAP Program**
**State Conservation Commission**
**2301 North Cameron Street**
**Harrisburg, PA 17110**

Applications will be accepted during normal business hours of 8:00 am through 4:00 pm, Monday - Friday. The Commission will not accept any applications delivered in person on the first day of an application period before 8:00 a.m. Faxed or emailed applications will not be accepted.

**Applications for COMPLETED projects**

1. For applications involving the installation of Best Management Practices (BMPs) to be considered a completed project the following must be included with the application:
   - Applicant must meet all eligibility requirements
   - REAP project certification Completion Certification for BMPs form
   - Paid receipts for each BMP
   - Documentation of other public funding (if applicable)

2. For applications involving the purchase of equipment to be considered a completed project the following must be included with the application:
   - Applicant must meet all eligibility requirements
   - Dealer certification form
   - Paid receipt showing the date the equipment was delivered to the farm and the serial number of the equipment

3. For applications that involve the development of nutrient/manure or conservation plans to be considered a completed project the following must be included with the application:
- Applicant must meet all eligibility requirements
- Paid receipt for the cost of the plan
- Documentation that the plan is complete or approved (if necessary)
- Documentation of other public funding (if applicable)

**Applications for PROPOSED projects**

For a proposed constructed BMP project to be eligible for the REAP tax credit program the following criteria must be met:

1. Proposed project (BMP) must be listed in the current Conservation, Ag E&S plan or Nutrient, Manure Management Plan (or plan amendment) or the REAP eligible BMP or equipment must be determined by a conservation planning and/or design professional to be necessary to improve the control of nutrient or sediment pollution on your agricultural operation.
2. A reasonable cost estimate based on a current site Inventory and Evaluation (I&E) that has been developed by a person with appropriate job NRCS job approval authority or equivalent experience/ training must be included.

Upon completion of the eligible project, the applicant must provide to the Commission a signed certification form indicating that the project is complete and paid receipts for the completed project. The PA Department of Revenue will then be notified that the eligible applicant has completed a project which meets the criteria for a REAP tax credit, and the amount of tax credit for the eligible applicant.

For projects that include the proposed purchase of equipment, delivery of equipment must take place by June 30, 2019. For projects involving the implementation of structural BMPs, all BMPs and BMP components must be complete by June 30, 2020 to be eligible.

If the approved eligible projects are not completed within the specified time frames, the outstanding projects may be removed from the program. Implementation and completion schedules may be extended past the implementation date approved with the application, on a case-by-case basis at the discretion of the Commission if the applicant notifies the Commission of the delay.

All multi-year projects deemed eligible by the Commission will be committed from the total REAP appropriation in the fiscal year in which the original application is approved.

Additional credits for projects costing more than the amount deemed eligible in this application must be submitted as a new application - to be considered if additional REAP tax credits are available.

**Additional Information for new applications**

The Commission will complete the application review of all FY 2018 applications within 60 days of receipt of a complete application, and will notify the applicant, in writing, if the application meets the requirements for an eligible project and is authorized to receive REAP tax credits. Review and approval of all applications is contingent upon the FY 2018 PA state budget.

The PA Department of Revenue will conduct a compliance check to determine the status of the applicant regarding all relevant state tax reports and returns. Within 60 days of notice from the Commission that a completed project is eligible, the PA Department of Revenue will issue a notice of award of a tax credit to the eligible applicant.

If the PA Department of Revenue deems that the applicant is non-compliant with regards to the required state tax reports, the applicant must immediately contact the Department of Revenue to resolve the tax issue. If the applicant remains in a non-compliant status for two years, the BMP or equipment applied for will be removed from the REAP program.
The Commission will consider applications for tax credits for BMPs on existing agricultural operations. Projects which include expansion of an existing agricultural operation of greater than 25% will not be eligible for REAP tax credit.

For all issues not specifically addressed by these guidelines, please refer to the provisions of Act 55 of 2007, Section 1701-E to Section 1710-E, or contact the Commission at 717-787-8821. Questions regarding tax implications for individual applicants should be directed to an accountant or other tax professional.
Attachment 1

REAP Eligible Best Management Practices (BMPs)

REAP Eligible Planning BMPs

Agricultural Erosion & Sedimentation (AG E&S) Control Plan
Lifespan: 3 years
Tax Credit Rate: 75%
Additional Information: Refer to Attachment 2
REAP Conditions: The plan must meet the requirements of Chapter 102 of the PA Clean Streams Law
Certification Requirements: The Ag E&S Plan shall be prepared by a person trained and experienced in Agricultural E&S control methods and techniques applicable to the size and scope of the project being designed.

Conservation Plan
Lifespan: 3 years
Tax Credit Rate: 75%
Additional Information: Refer to Attachment 2
Certification Requirements: The plan must be written by a NRCS certified conservation planner.

Manure Management Plan (MMP)
Lifespan: 3 years
Tax Credit Rate: 75%
Additional Information: Refer to Attachment 3. See also: DEP Land Application of Manure – Manure Management Plan Guidance
REAP Conditions: The plan must meet the standards of Chapter 91 of the PA Clean Streams Law

Nutrient Management Plan
Lifespan: 3 years
Tax Credit Rate: 75%
Additional Information: Refer to Attachment 3. Must meet Act 38 Standards.
Certification Requirements: Must be written by an Act 38 certified specialist.

REAP Eligible Equipment BMPs

Composting Equipment
Lifespan: New Equipment - 7 years, Used Equipment - 3 years
Tax Credit Rate: 50%
Additional Information: Compost screeners, Compost turning equipment, Compost baggers, other equipment approved by Commission
REAP Conditions: Composting must be included in the operation’s Nutrient/Manure Management Plan.

Cover Crop Rollers and Roller Attachments
Lifespan: New Equipment - 7 years, Used Equipment - 3 years
Tax Credit Rate: 50%
Additional Information: Refer to Attachment 5
REAP Conditions: Equipment used to roll down cover crop residue prior to no-till planting of subsequent crops

Manure Incineration Equipment
Lifespan: New Equipment - 7 years, Used Equipment - 3 years
Tax Credit Rate: 50%
Additional Information: Furnaces, Burners, Conveyors, other equipment approved by Commission
REAP Conditions: Incineration must be included in the operator’s Nutrient/Manure Management Plan

Manure Injection Equipment – Low Disturbance
Lifespan: New Equipment - 7 years, Used Equipment - 3 years
Tax Credit Rate: 50%
Additional Information: Refer to Attachment 6
**REAP Conditions:** Equipment must be capable of shallow injection of manure and/or must be a contiguous part of a manure injection system. Manure injection equipment that utilizes new technology will be evaluated by the Commission on a case by case basis.

**Certification Requirements:** Requires Equipment Dealer Certification

**Manure Separation Equipment**
- **Lifespan:** New Equipment - 7 years, Used Equipment - 3 years
- **Tax Credit Rate:** 50%
- **REAP Conditions:** Manure separation must be included in the operation’s Nutrient/Manure Management Plan.

**No-Till Planting Equipment**
- **Lifespan:** New Equipment - 7 years, Used Equipment - 3 years
- **Tax Credit Rate:** 50%
- **Additional Information:** Refer to Attachment 5
- **Certification Requirements:** Requires Equipment Dealer Certification

**Precision Nutrient Application Equipment**
- **Lifespan:** New Equipment - 7 years, Used Equipment - 3 years
- **Tax Credit Rate:** 50%
- **Additional Information:** Refer to Attachment 5
- **REAP Conditions:** Components of Nutrient Application Equipment that enable base equipment (new or existing) to perform with variable rate application capabilities.
- **Certification Requirements:** Requires Equipment Dealer Certification

**Residue Management Equipment – Low Disturbance**
- **Lifespan:** New Equipment - 7 years, Used Equipment - 3 years
- **Tax Credit Rate:** 50%
- **Additional Information:** Refer to Attachment 6
- **REAP Conditions:** Vertical tillage equipment used to incorporate manure and/or manage heavy corn residue with minimal soil disturbance. Equipment whose main function is secondary tillage (i.e. disking equipment) is not eligible. Equipment that utilizes new technology will be evaluated by the Commission on a case-by-case basis.
- **Certification Requirements:** Requires Equipment Dealer Certification

**Access Road**
- **Practice Code:** 560
- **Lifespan:** 5 years
- **Tax Credit Rate:** 50%
- **REAP Conditions:** This practice shall only be applicable to those locations on the farm where an improved travel-way is needed to access newly established BMPs. REAP tax credits will not be authorized for any construction or portion thereof exceeding 14 feet in width or 500 feet in length.
- **Certification Requirements:** Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Animal Mortality Facility**
- **Practice Code:** 316
- **Lifespan:** 10 years
- **Tax Credit Rate:** 50%
- **REAP Conditions:** The animal mortality composting facility must be part of a manure/nutrient management plan. The dead animals must come from the producer’s operation and may not come from outside sources.
- **Certification Requirements:** Any Conservation district or NRCS employee, or NRCS Certified Technical Service Provider, or private sector engineer or technician who has appropriate training and experience in the BMP planning, design and installation methods and techniques applicable to the size and scope of the BMP being certified.

**Animal Trails and Walkways**
- **Practice Code:** 575
- **Lifespan:** 5 years

---

**All Other REAP Eligible BMPs**
Tax Credit Rate: 50%
REAP Conditions: Eligible in conjunction with Prescribed Grazing (528) only. REAP tax credit not authorized for any construction or portion thereof that is greater than 12 feet in width.
Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Channel Stabilization**

*Practice Code:* 584  
*Lifespan:* 10 years  
*Tax Credit Rate:* 50%  
*Additional Information:* Applicant is responsible for all local, state and federal permits and approvals that may be required.
*REAP Conditions:* Used to stabilize stream banks eroded due to excessive water flow or livestock activity.
*Certification Requirements:* Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Closure of Waste Impoundments**

*Practice Code:* 360  
*Lifespan:* Operator must agree to permanently abandon the designated existing structure and the appropriate component practices of the structure.
*Tax Credit Rate:* 50%  
*REAP Conditions:* BMP must be identified in operator’s nutrient or manure management plan. Plan must also state whether the facility is to be replace or is no longer needed.
*Certification Requirements:* Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Composting Facility**

*Practice Code:* 317  
*Lifespan:* 10 years  
*Tax Credit Rate:* 50%  
*REAP Conditions:* The composting facility must be included in manure/nutrient management plan. The material to be composed must include animal waste generated on the operation and may not originate from outside sources. The composting operation must meet the PA-DEP criteria for on-farm composting.
*Certification Requirements:* Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Constructed Wetland**

*Practice Code:* 656  
*Lifespan:* 5 years  
*Tax Credit Rate:* 50%  
*REAP Conditions:* Eligible for wastewater treatment only.
*Certification Requirements:* Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Cover Crop**

*Practice Code:* 340  
*Lifespan:* Annual  
*Tax Credit Rate:* 50%  
*Additional Information:* Refer to Attachment 11
*REAP Conditions:* Applicants may include 3 years of proposed plantings. Invoices must be submitted at the end of each year’s establishment. Burndown, nutrient applications, and lime are not eligible.
*Certification Requirements:* Completion of the Cover Crop – Job Sheet ([Application p14](#)) is required.

**Critical Area Planting**

*Practice Code:* 342  
*Lifespan:* 5 years  
*Tax Credit Rate:* 50% or 75% (rate when used for ACA treatment)
*Certification Requirements:* Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Diversion**

*Practice Code:* 362  
*Lifespan:* 5 years  
*Tax Credit Rate:* 50% or 75% (rate when used for ACA treatment)
**REAP Conditions:**
Companion practices are limited to the minimum amount needed for proper function and safe outlet of the diversion.

**Certification Requirements:**
Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

---

### Fence

**Practice Code:** 382  
**Lifespan:** 10 years  
**Tax Credit Rate:** 50% or 75%  
**Additional Information:** 75% rate only applies when used for ACA treatment or for animal exclusion in conjunction with 50 Foot Riparian Forest Buffer (391). All other uses are at the 50% rate.

**REAP Conditions:**
Used in conjunction with Access Control (472) to protect other practices and or land uses AND in conjunction with Prescribed Grazing (528) only. REAP tax credits authorized for establishing fencing is limited to permanent fence utilizing new materials. Fencing receiving REAP tax credits must not have indirect negative environmental impacts on adjacent areas, such as allowing uncontrolled livestock access to sensitive areas such as stream corridors, steep areas subject to erosion, or woodland subject to overgrazing. REAP tax credit not authorized for removal and/or upgrade of existing fence.

**Certification Requirements:**
Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer

---

### Grassed Waterway

**Practice Code:** 412  
**Lifespan:** 5 years  
**Tax Credit Rate:** 50% or 75% (rate when used for ACA treatment)

**Certification Requirements:**
Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer

---

### Heavy Use Area Protection

**Practice Code:** 561  
**Lifespan:** 10 years  
**Tax Credit Rate:** 50% or 75%

**Additional Information:** 75% rate when used for ACA treatment; If BMP includes a roof structure, the Roofed Storage/Roofed ACA worksheet (page 13 of Application) must be submitted along with the application.

**REAP Conditions:**
SCC staff site visit required prior to BMP approval for roofed Heavy Use Area Protection.

**Certification Requirements:**
Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer

---

### Lined Waterway or Outlet

**Practice Code:** 468  
**Lifespan:** 5 years  
**Tax Credit Rate:** 50% or 75% (rate when used for ACA treatment)

**REAP Conditions:**
Used where vegetation alone will not provide adequate stabilization.

**Certification Requirements:**
Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer

---

### Obstruction Removal

**Practice Code:** 500  
**Lifespan:** 5 years  
**Tax Credit Rate:** 50%

**REAP Conditions:**
Eligible when existing obstructions interfere with other planned BMPs. REAP tax credits not authorized to remove brush in order to install fence.

**Certification Requirements:**
Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer

---

### Pipeline

**Practice Code:** 516  
**Lifespan:** 5 years  
**Tax Credit Rate:** 50%

**REAP Conditions:**
Eligible as a component of livestock watering systems in conjunction with Prescribed Grazing (528) only. Pipe with a diameter of 8 inches or less that is used to convey clean water for livestock. REAP tax credits not authorized when the pipeline will be used in conjunction with a domestic water supply or irrigation.

**Certification Requirements:**
Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.
Pond
Practice Code: 378
Lifespan: 5 years
Tax Credit Rate: 50%
REAP Conditions: Practice is eligible for livestock water source in conjunction with Prescribed Grazing (528) only. Applicant is responsible for all local, state and federal permits and approvals that may be required.
Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Poultry/Livestock Housing Vegetative Buffers
Practice Code: 380 (Windbreak/Shelterbelt Establishment)
Lifespan: 10 years
Tax Credit Rate: 50%
Additional Information: Plantings must conform to USDA/NRCS Windbreak/Shelterbelt Establishment (380) Technical Note No. 1
REAP Conditions: Establishment costs only. Plantings must be within close proximity to livestock housing and exhaust fans
Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Pumping Plant for Waste Water Control
Practice Code: 533
Lifespan: 10 years
Tax Credit Rate: 50%
REAP Conditions: Eligible for livestock water source only.
Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Riparian Forest Buffer
Practice Code: 391
Lifespan: 15 years
Tax Credit Rate: 50% rate when used in conjunction with the minimum width of the practice (35 feet); 75% rate when used in conjunction with 50 foot or greater width.
Additional Information: NRCS Practice Guide for Riparian Forest Buffers, DEP Riparian Forest Buffer Guidance
REAP Conditions: Vegetated buffer establishment only, 180 foot maximum width eligible for REAP Tax Credit, maintenance costs for three years may be included in eligible costs. This practice is available to agricultural and non-agricultural operations.
Certification Requirements: Any Conservation district or NRCS employee, or NRCS Certified Technical Service Provider, or private sector engineer or technician who has appropriate training and experience in the BMP planning, design and installation methods and techniques applicable to the size and scope of the BMP being certified.

Riparian Forest Buffer - Maintenance
Practice Code: 391
Lifespan: annual
Tax Credit Rate: 50% rate when used in conjunction with the minimum width of the practice (35 feet); 75% rate when used in conjunction with 50 foot or greater width.
Additional Information: NRCS Practice Guide for Riparian Forest Buffers, DEP Riparian Forest Buffer Guidance
REAP Conditions: Maintenance activities performed to ensure the survival and growth of riparian buffer plantings, in accordance with long-term buffer operation and maintenance, are eligible – including: mowing, applications of herbicide, vegetation removal, control of noxious weeds, protections from competing plants/animals.
Certification Requirements: Any Conservation district, NRCS employee, NRCS Certified Technical Service Provider, DEP employee, or private sector technician who has appropriate training and experience in the BMP planning, design and installation methods and techniques applicable to the size and scope of the BMP being certified. Completion of the Riparian Forest Buffer Maintenance Worksheet (Application p15) is required.

Riparian Herbaceous Cover
Practice Code: 390
Lifespan: 5 years
Tax Credit Rate: 50%

REAP Conditions: Vegetated buffer establishment only.

Certification Requirements: Any Conservation district or NRCS employee, or NRCS Certified Technical Service Provider, or private sector engineer or technician who has appropriate training and experience in the BMP planning, design and installation methods and techniques applicable to the size and scope of the BMP being certified.

Roof Runoff Structure
Practice Code: 558
Lifespan: 5 years
Tax Credit Rate: 50% or 75% (rate when used for ACA treatment)

REAP Conditions: This practice includes roof gutters and downspouts and shall only be applied to locations where runoff from farm buildings presents is causing severe erosion and/or transporting pollutants from animal wastes. Practice must include establishment of a stable outlet (see Underground Outlet). Repairs to a roof in preparation for this practice are not eligible for REAP tax credits.

Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Roofs and Covers
Practice Code: 367
Lifespan: 10 years
Tax Credit Rate: 50% or 75% (rate when used for ACA treatment)

Additional Information: The Roofed Storage/Roofed ACA worksheet (p 13 of Application) must be submitted along with the application.

REAP Conditions: Practice applies to construction of roofing over Waste Storage Facility (313) and/or Heavy Use Area Protection (561). SCC staff site visit required. Roofs over new permanent animal housing (barns) are not eligible for REAP credits.

Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Sediment Basin
Practice Code: 350
Lifespan: 5 years
Tax Credit Rate: 50%

REAP Conditions: Basins associated with new animal housing are not eligible for REAP credits. If other REAP-eligible BMPs are associated with the practice, a prorated portion of the basin may be eligible.

Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Silage Leachate Management
Practice Code: 632
Lifespan: Equal to longest component BMP lifespan, not to exceed 15 years
Tax Credit Rate: 50%

Certification Requirements: Any Conservation district or NRCS employee, or NRCS Certified Technical Service Provider, or private sector engineer or technician who has appropriate training and experience in the BMP planning, design and installation methods and techniques applicable to the size and scope of the BMP being certified.

Sinkhole Treatment
Practice Code: 527
Lifespan: 5 years
Tax Credit Rate: 50%

REAP Conditions: Utilized to permanently close sinkholes that currently pose a threat to groundwater pollution from animal activity or manure application.

Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Solid/Liquid Waste Separation Facility
Practice Code: 632
Lifespan: 10 years
Tax Credit Rate: 50%

REAP Conditions: Manure separation must be included in the operation’s Nutrient/Manure Management Plan.

Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.
**Spring Development**

**Practice Code:** 574  
**Lifespan:** 5 years  
**Tax Credit Rate:** 50%  
**REAP Conditions:** Eligible in conjunction with Prescribed Grazing (528) only. Subsurface drainage (606) is only authorized for supplying a viable water source needed for the livestock and in conjunction with providing a stable outlet. The practice is not authorized for traditional tile drainage in adjacent fields. Practice may include a maximum of 1,200 feet of 4-inch collection line only. For collection systems greater than 1,200 feet, SCC staff approval is required. All Federal, State, and Local laws and regulation pertaining to wetlands must be followed.

**Certification Requirements:** Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Stream Crossing**

**Practice Code:** 578  
**Lifespan:** 5 years  
**Tax Credit Rate:** 50%  
**Additional Information:** Applicant is responsible for all local, state and federal permits and approvals that may be required.

**REAP Conditions:** Eligible for animal and agricultural equipment crossing and in conjunction with Prescribed Grazing (528). REAP tax credits not authorized for any construction or portion thereof that is greater than 14 feet in width.

**Certification Requirements:** Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Stream Bank and Shoreline Protection**

**Practice Code:** 580  
**Lifespan:** 5 years  
**Tax Credit Rate:** 50%  
**Additional Information:** Applicant is responsible for all local, state and federal permits and approvals that may be required.

**REAP Conditions:** Used to stabilize stream banks eroded due to excessive water flow or livestock activity.

**Certification Requirements:** Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Structure for Water Control**

**Practice Code:** 587  
**Lifespan:** 5 years  
**Tax Credit Rate:** 50% or 75% (rate when used for ACA treatment)  
**REAP Conditions:** REAP tax credits not authorized for the installation of structures designed to impound water for irrigation, recreation, household water, or to create ponds.

**Certification Requirements:** Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Subsurface Drain**

**Practice Code:** 606  
**Lifespan:** 5 years  
**Tax Credit Rate:** 50%  
**REAP Conditions:** Subsurface drainage is eligible only as a companion practice for primary structural BMPs. REAP tax credits for 606 are not authorized for non-structural or vegetative practices such as Conservation Cover (327), Contour Farming (330), Cover Crop, Forage and Biomass Planting.

**Certification Requirements:** Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Terrace**

**Practice Code:** 600  
**Lifespan:** 5 years  
**Tax Credit Rate:** 50%  
**REAP Conditions:** The practice is to be applied where: water erosion is a resource concern, the soils and topography are such that terraces can be constructed and farmed with a reasonable effort, and a stable outlet can be provided.

**Certification Requirements:** Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

**Underground Outlet**

**Practice Code:** 620
Lifespan: 5 years
Tax Credit Rate: 50% or 75% (rate when used for ACA treatment)
REAP Conditions: This practice is to be used as a supporting practice to outlet water from other conservation practices such as roof runoff structure, terrace, and watering facilities.
Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Vegetated Treatment Area
Practice Code: 635
Lifespan: 5 years
Tax Credit Rate: 50% or 75% (rate when used for ACA treatment)
REAP Conditions: Permanent vegetation used for agricultural wastewater treatment is eligible for REAP credits.
Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Waste Storage Facility
Practice Code: 313
Lifespan: 10 years
Tax Credit Rate: 50%
Additional Information: If BMP includes a roof structure, the Roofed Storage/Roofed ACA worksheet (page 13 of Application) must be submitted along with the application. Applicant is responsible for all local, state and federal permits and approvals that may be required.
REAP Conditions: SCC staff site visit required to prior to BMP approval for the roof structure component
Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Waste Transfer
Practice Code: 634
Lifespan: 10 years
Tax Credit Rate: 50% or 75% (rate when used for ACA treatment)
REAP Conditions: Eligible in conjunction with Waste Storage Facility (313) and Alternative Manure Utilization only. REAP tax credits are not authorized for: Portable pumps, pumping equipment or other portable equipment for removing, distributing, or applying animal waste on the land.
Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Waste Treatment
Practice Code: 629
Lifespan: Annual
Tax Credit Rate: 50%
Additional Information: Only completed projects are eligible
REAP Conditions: Use of the Waste Treatment practice must be included in the operation’s Nutrient/Manure Management Plan.
Certification Requirements: Any Conservation district or NRCS employee, or NRCS Certified Technical Service Provider, or private sector engineer or technician who has appropriate training and experience in the BMP planning, design and installation methods and techniques applicable to the size and scope of the BMP being certified.

Water Well
Practice Code: 642
Lifespan: 5 years
Tax Credit Rate: 50%
REAP Conditions: Eligible in conjunction with Prescribed Grazing (528) only. REAP tax credits not authorized for: providing water for the farm headquarters; domestic use.
Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.

Watering Facility
Practice Code: 614
Lifespan: 5 years
Tax Credit Rate: 50%
REAP Conditions: Eligible in conjunction with Prescribed Grazing (528) only. REAP tax credits authorized for permanently located facilities within grazing paddocks or pastures. REAP tax credits not authorized for providing water for the farm headquarters; domestic use.
Certification Requirements: Individual with appropriate NRCS Job Approval Authority or Registered Professional Engineer.
**Attachment 2**

**Conservation Plan and Agricultural E&S Plan Policy**

An agricultural operation that is an applicant for the REAP Tax Credit Program for agricultural BMP or equipment must first have in place a current Conservation Plan and/or Ag E&S Plan for all acres plowed and or tilled that are under their management control (owned or rented or leased or utilized) in the year that they are applying for REAP Tax Credits to be eligible for the program.

For the purposes of REAP, a Conservation Plan and/or Ag E&S Plan, is defined as “current” if the plan accurately reflects the existing operation; including correct and current number of acres, crop rotations, tillage, and animal numbers. The applicant must be on-schedule for full implementation of the plan.

A current Conservation Plan/Ag E&S Plan must address the following soil, water, and nutrient resource concerns on the agricultural operation with the identified quality criteria:

<table>
<thead>
<tr>
<th>Resource Concern</th>
<th>Description of Concern</th>
<th>Quality Criteria</th>
<th>Assessment or Evaluation Tools</th>
</tr>
</thead>
<tbody>
<tr>
<td>Soil Erosion – Sheet &amp; Rill</td>
<td>Detachment and transport of soil particles degrade soil quality.</td>
<td>Sheet and Rill erosion does not exceed “T” over the crop rotation.</td>
<td>Visual, RUSLE hard copy, RUSLE2</td>
</tr>
<tr>
<td>Soil Erosion – Ephemeral &amp; Classic Gully</td>
<td>Small and large channels degrade soil quality.</td>
<td>Conservation Practices or BMPs stabilize the small and large channels.</td>
<td>Visual, volume calculation</td>
</tr>
<tr>
<td>Water Quality – Excessive Suspended Sediment in Surface Water</td>
<td>Cropping system includes crops with &lt;25% cover* adjacent to surface water**, which degrades surface water** quality.</td>
<td>Cropland with &lt;25% cover* within 100’ of surface water** are treated with additional Conservation Practices or BMPs to mitigate adverse effect.</td>
<td>Visual, transect measurement</td>
</tr>
<tr>
<td>Water Quality – Excessive Nutrients &amp; Organics in Surface Water and Groundwater #</td>
<td>Pollution from human-induced nutrients (N, P and Organics) degrades surface water**/groundwater.</td>
<td>Nutrients and organics are stored, handled and applied to mitigate adverse effect.</td>
<td>Visual, water quality indicators, P Index, MMP***, P.C. 590, Act 38, Act 38 + Permit</td>
</tr>
</tbody>
</table>

* The term *cover* includes living plant cover and post- harvest crop residue.

** The term *surface water* is limited to: perennial and intermittent streams, lakes, ponds and existing open sinkholes.

*** The term *MMP* denotes the requirements of the DEP Manure Management Plan.

# This resource concern is now required to be addressed for all REAP participating farms.
Nutrient Management/Manure Management Policy

Proposed and existing CAOs and CAFOs are required to have an approved Nutrient Management Plan under the State Conservation Commission’s (SCC) Nutrient Management Program (Act 38) in order to be eligible for REAP tax credits. If these operators do not have a plan, they may submit a REAP application to support their efforts to get a plan developed for their farm. Likewise, all farming operations (Non-CAO and Non-CAFO) may also apply for REAP tax credits to develop a nutrient management plan meeting the SCC’s Act 38 criteria.

All farming operations that generate or utilize manure, other than CAO’s and CAFOs, are required to have a Manure Management Plan (MMP) under the Department of Environmental Protection (DEP) Chapter 91 regulations or a voluntary Act 38 Nutrient Management Plan in order to be eligible for REAP tax credits.

Nutrient Management Plans written under Natural Resources Conservation Service (NRCS) Comprehensive Nutrient Management Plans (CNMPs) or NRCS 590 standard, as part of the operations conservation plan meet the criteria of DEP’s Chapter 91 MMP.

MMPs can be prepared by the farmer although the farmer may benefit from obtaining assistance from individuals trained and experienced in developing these plans. The Best Management Practices (BMPs) applied for through the REAP Tax Credit program must be consistent with the MMP.

This nutrient/manure planning requirement (NMP, MMP) must address the owned and rented fields where manure from the operation is planned to be mechanically applied. For grazing operations, a grazing plan that meets NRCS P.C. 528 standards will meet this requirement.

Manure volume for the operation will be calculated by the BMP designer, as necessary to properly design the manure management or storage BMP being considered for this operation.

To be considered a current NMP or MMP, the operator must be on-schedule for full implementation of the plan. The operator will need to implement the chosen NMP/MMP and keep it current with the farming operation for the lifespan of the BMP for which the REAP tax credit has been approved. This will generally be 10 years from the certification date of the BMP.
Verification Signatures

Applies to: REAP Application Section 2 (p4)
*see below for Verification Signatures for Equipment Purchases

The individual signing the Verification Page in Section 2 of the REAP application is verifying that: the applicant’s answers are true, the plans exist, the plans reflect the current management of the agricultural operation, and the plans are either: 1) fully implemented, or 2) being implemented per the written implementation schedule.

The individual signing the Verification Page must not have a potential conflict of interest with the applicant. The individual shall not verify an application pertaining to their own farming operation, an application for immediate family members, or a business with which the individual or a member of their immediate family is associated. For purposes of this REAP application, immediate family includes a parent, spouse, child, brother, or sister.

Please note that BOTH Section 2A and Section 2B must be verified on p4 by a qualified individual, even if there are no animals present on the operation.

The following organizations/individuals are qualified under REAP to provide the necessary verification signatures:

- Conservation District Employees with a working knowledge and appropriate training in the conservation planning process and BMP implementation.
- Qualified Technical Service Providers (TSPs) – those in the TSP registry and certified to write conservation plans, or working under the supervision of a certified TSP. Also, individuals with current certification under Act 38 of 2005, both public and private sector, are qualified to provide verification signatures.
- USDA NRCS employees who are certified in conservation planning, or working under the supervision of a certified individual. The Commission will accept the signature of a USDA NRCS employee on a form provided by the USDA NRCS in lieu of p4 of the REAP application, provided the NRCS form verifies the same requirements. Please attach the USDA NRCS form where applicable.

Verification signatures provided by qualified staff at the County Conservation District do not require an action of the District Board.

The Commission reserves the right to disqualify any individual from providing a Verification Signature.

Verification Signatures for Equipment Purchases

Please note: Verification signatures for Section 2 of the REAP Application – see above – apply to all REAP applicants.

For equipment purchases, manufacturers and dealers of equipment with appropriate knowledge of the specific equipment, private sector engineers, and others as determined by the Commission are qualified under the REAP program to sign the “Dealer Certification” forms in the REAP Application.

The individual signing on the Dealer Certification forms must not have a conflict of interest with the applicant. The individual cannot certify their own equipment, equipment purchased by an immediate family member or a business with which the individual or a member of immediate family is associated.

The Commission reserves the right to disqualify any individual from providing a Verification Signature.
**REAP Equipment Requirements**

All REAP tax credit applications for the purchase of no-till equipment and cover crop rolling equipment must meet **ALL** other general REAP Eligibility Requirements.

The Commission will not approve applications for tax credits for any equipment for which the REAP life span, as defined by Attachment 1 of the REAP Guidelines has expired.*

For the FY 2018 program, delivery of all equipment must take place by **June 30, 2019**.

The SCC reserves the right to deny an application for equipment if the cost of the equipment is not within reasonable and fair market value as determined by the Commission. The SCC reserves the right to deny an application for equipment that does not meet the intent of the standards set forth for the equipment by the SCC.

To be eligible for the REAP program, all equipment must be designed and commercially manufactured for the specific purpose and intent as listed below and the applicant must agree to not alter the intended use.

**see Attachment 12 for the REAP Equipment Trade-In/Trade-Up Policy**

---

**No-Till Planting Equipment**

**New equipment qualifications:**

- The no-till planter or drill must be capable of placing seeds at the optimum depth for germination and growth in untilled soil with residue cover.
- The equipment is certified to meet the above criteria by a qualified farm equipment dealer authorized by the SCC - **REAP No-Till Equipment Purchase Certification** (Application p10)
- Applicants must sign the **REAP No-Till Equipment Purchase Certification** (p10) stating that the equipment will be utilized by the applicant as intended in untilled soil - consistent with the provisions of a current conservation plan.
- New equipment shall have a REAP lifespan of **7 years**.

**Used equipment qualifications:**

- The used no till drill or planter must be capable of placing seeds at the optimum depth for germination and growth in untilled soil with residue cover.
- All wear items must meet or exceed manufacturer’s guidelines for wear replacement parts as certified by a qualified equipment dealer.
- The equipment is certified to meet the above criteria by a qualified farm equipment dealer authorized by the SCC - **REAP No-Till Equipment Purchase Certification** (Application p10)
- Applicants must sign the **REAP No-Till Equipment Purchase Certification** (Application p10), stating that the equipment will be utilized by the applicant as intended in untilled soil - consistent with the provisions of a current conservation plan.
- The cost of parts, repair or refurbishing of existing no-till planting equipment is ineligible for REAP Tax credits.
- Used equipment sold privately must be certified by a dealer representative to meet the above used equipment criteria. (p10)
- Used equipment shall have a lifespan of **3 years**.

*Note: Drills used for interseeding cover crops are eligible*
Precision Nutrient Application Equipment

The Commission will provide REAP credits for the components of Nutrient Application Equipment that enables base equipment (new or existing) to be upgraded with precision/variable rate application capabilities.

**New equipment qualifications:**

- The equipment, when upgraded, must be capable of applying manure or fertilizer at variable rates across a crop field according to specific data input from computerized maps or optical sensors.
- Only the components necessary to apply nutrients at variable rates are eligible. Examples include: hydraulic motors, variable rate drives, section control, scales, nozzle controls, metering devices.
- Monitors and displays necessary to control the components are eligible.
- Components necessary to upgrade existing application equipment to variable rate capabilities is eligible. The equipment is certified to meet the above criteria by a qualified farm equipment dealer authorized by the SCC - REAP Precision Application Equipment Certification (Application p11).
- Applicants must sign the same certification (p11) stating that the equipment will be utilized by the applicant, as intended - consistent with a current Nutrient/Manure Management Plan.
- New equipment shall have a REAP lifespan of 7 years.

**Used equipment qualifications:**

- The used precision application equipment must meet the same qualifications as new equipment.
- All wear items must meet or exceed manufacturer’s guidelines for wear replacement parts - as certified by a qualified equipment dealer.
- The equipment is certified to meet the above criteria by a qualified farm equipment dealer authorized by the SCC - REAP Precision Application Equipment Certification (Application p11).
- Applicants must sign the same certification (p11) stating that the equipment will be utilized by the applicant, as intended - consistent with a current Nutrient/Manure Management Plan.
- Used equipment sold privately must be certified by a qualified farm equipment dealer to meet the above used equipment criteria. (p11)
- Used equipment shall have a lifespan of 3 years.

*The Commission will not approve applications for tax credits for any Precision Application Equipment delivered prior to January 1, 2015, or for equipment for which the REAP life span, as defined by Attachment 1 of the REAP Guidelines has expired.

**Cover Crop Roller/Roller Attachment Equipment**

**New Equipment qualifications:**

- Cover crop rollers must be capable of rolling down cover crop biomass in order for subsequent crops to be no-till planted.
- Cover crop rolling attachments must attach directly to the no-till planter or no-till drill planting units and must perform the same function stated above.
- New equipment shall have a REAP lifespan of 7 years.

**Used equipment qualifications:**

- The used cover crop roller/roller attachments must be capable of rolling down cover crop biomass in order for subsequent crops to be no-till planted.
- All wear items must meet or exceed manufacturer’s guidelines for wear replacement parts as certified by a qualified equipment dealer.
- Used equipment shall have a lifespan of 3 years.
REAP Low-Disturbance Manure Injection/Low Disturbance Residue Management Requirements

All REAP Tax Credit applications for the purchase of Low-Disturbance Residue Management Equipment and/or Low Disturbance Manure Injection Equipment must meet ALL other general REAP Eligibility Requirements. Please complete the REAP Eligibility questions beginning on Page 2 of the Application to determine eligibility.

For the FY 2017 REAP program, delivery of all low disturbance residue management equipment must take place by June 30, 2019.

All applicants for REAP tax credits for Low-Disturbance Residue Management Equipment and/or Low Disturbance Manure Injection Equipment must attach a bill of sale, sales order, price quote or receipt which shows the purchase price of the equipment. If the equipment has been delivered at the time of application, the applicant must provide a paid receipt which reflects the total cost paid, the delivery date of the equipment, and the serial number.

The Commission reserves the right to deny an application for equipment if the cost of the equipment is not within reasonable and fair market value as determined by the Commission. The Commission reserves the right to deny an application for equipment that does not meet the intent set forth in the standards for the equipment by the Commission.

To be eligible for the REAP program, all equipment must be designed and commercially manufactured for the specific purpose and intent and the applicant must agree to not alter the intended use.

The Commission will not approve applications for tax credits for any low disturbance residue management or manure injection equipment for which the life span, as defined by Attachment 1 of the REAP Guidelines has expired.

**see Attachment 12 for the REAP Equipment Trade-In/Trade-Up Policy**

Low-Disturbance Residue Management Equipment

New equipment qualifications:

- Equipment must be designed for (and be capable of) cutting and sizing crop residue with minimal soil disturbance.
- Equipment must have a maximum gang angle (adjustable or fixed) of 5 degrees.
- Equipment must have a maximum working depth of 4 inches.
- Equipment with disks must use disks with no concavity.
- Equipment must be set up and operated to leave a minimum of 60% residue cover on the surface.
- Equipment should be operated at an average depth of 2 inches.
- The use of residue management equipment (vertical tillage) must be listed in the RUSLE 2 soil loss calculations of the applicant’s current Conservation Plan/Ag E&S Plan.
- Seed boxes that attach directly to eligible equipment are eligible.
- The purchase of equipment must include setup by an equipment dealer.
- Applicant and Equipment Dealer must sign the “REAP Low Disturbance Manure Injection/ Low Disturbance Residue Management Equipment Purchase Certification” (Application p12).
- New equipment shall have a REAP lifespan of 7 years.
Used equipment qualifications:

- Used equipment must meet the same conditions as new equipment.
- All wear items must meet or exceed manufacturer’s guidelines for wear replacement parts as certified by a qualified equipment dealer.
- Applicant and Equipment Dealer must sign the “REAP Low Disturbance Manure Injection/ Low Disturbance Residue Management Equipment Purchase Certification” *(Application p12)*.
- The costs of operator-installed parts, repair or refurbishing of existing equipment does not qualify for REAP tax credits.
- Used equipment sold privately must also be certified by a dealer representative to meet the above used equipment criteria. *(Application p12)*
- Used equipment shall have a lifespan of 3 years.

*Note: Equipment whose main function is secondary tillage (i.e. disking equipment) is not eligible.*

**Low-Disturbance Manure Injection Equipment**

The SCC will provide tax credits for Shallow disk injectors and/or Low Disturbance Manure Incorporation Equipment that attaches directly to the manure injection system.

New equipment qualifications:

- The equipment is capable of injecting manure effectively at a shallow depth (approx. 4” maximum) while creating minimal surface disturbance. Adjustable equipment must be set up to meet the above residue or cover condition.
- The equipment must be used in a manner consistent with the provisions of a current Conservation Plan/Ag E&S Plan and a current Nutrient Management Plan/Manure Management Plan.
- The purchase of equipment must include field setup by an equipment dealer.
- Applicant and Equipment Dealer must sign the “REAP Low Disturbance Residue Management Equipment/ Low Disturbance Manure Injection Equipment Purchase Certification,” *(Application p12)*
- New equipment shall have a REAP lifespan of 7 years.

Used equipment qualifications:

- Used equipment must meet the same conditions as new equipment
- All wear items must meet or exceed manufacturer’s guidelines for wear replacement parts as certified by a qualified equipment dealer.
- Applicant and Equipment Dealer must sign the “REAP Low Disturbance Manure Injection/ Low Disturbance Residue Management Equipment Purchase Certification” *(Application p12)*.
- The costs of operator-installed parts, repair or refurbishing of existing equipment is ineligible for REAP Tax credits
- Used equipment sold privately must also be certified by a dealer representative to meet the above used equipment criteria.
- Used equipment shall have a lifespan of 3 years.

*Note: Manure transport tanks, drag line, and pumping equipment are not eligible.*
Attachment 7

Map Requirements

The REAP application must include*:

- A 1:24,000 scale USGS Topographic quad map showing an outline of your home farm and any other parcels that contain the BMPs requested in your application.
  - An 8.5” X 11” black and white photocopy of a USGS Quad map at 1:24,000 scale is acceptable provided it includes the name of the Quad, and a major cultural feature or map feature that is readily identifiable.
  - Be sure to include the name of the 1:24,000 Quad maps.

- Other maps or aerial photographs may be accepted at the discretion of the Commission provided that the map is of sufficient scale and clarity to clearly identify the location of the BMPs for which tax credits are sought.

*Maps are not required if applying only for equipment.

If you have any questions about where to obtain the required map, please contact:

- Your technical service provider
- The County Conservation District
- The State Conservation Commission at 717-787-8821

Frequently Asked Map Questions

Q. All I want to do is buy a no-till drill. Do I still have to provide all this mapping information?
A. No. You are exempt from this requirement.

Q. As a sponsor what do I have to submit?
A. Requirements for sponsored applications are the same as those for any other applicant. A map of the operation is required.

Q. My agricultural operation consists of five separate parcels? How should I draw them?
A. Draw them as five separate parcels unless they have common boundaries. Those parcels may be drawn with a common exterior perimeter if you desire.

Definitions

Act 55 of 2007  (Section 1702-E)

“Agricultural Erosion and Sedimentation Control Plan.” site-specific plan that:
   1. Meets the requirement of the Act of June 22, (1937 P.L. 1987, No 394), known as the Clean Streams
      Law and 25 PA. Code Chapter 102 (relating to erosion and sediment control);
   2. Identifies best management practices to minimize accelerated erosion and sediment from an
      agricultural operation.

“Agricultural Operation.” The property on which occur the management and use of farming resources for the
production of crops, livestock or poultry or for equine activity. Please see attachment 10 for complete definition

“Animal Concentration Areas.” An exterior area of an agricultural operation subject to rainfall where livestock
congregate, including a barnyard, a feedlot, a loafing area, an exercise lot or other similar animal confinement
area that will not maintain a growing crop, or where deposited manure nutrients are in excess of crop needs.
The term does not include areas managed as pasture or other cropland and pasture access ways if they do not
cause direct flow of nutrients to surface water or groundwater.

“Best Management Practice.” A practice or combination of practices determined by the State Conservation
Commission or United States Department of Agriculture Natural Resources and Conservation Service to be
effective and practical, considering technological, economic and institutional factors, to manage nutrients and
sediment to protect surface water and groundwater.

“Business Firm.” An entity authorized to do business in this Commonwealth and subject to the taxes imposed by
Article III, IV, VI, VII, VIII, IX or XV.

“Conservation District.” A county conservation district established under the Act of May 15, 1945 (P.L.547,
No.217) known as the Conservation District Law.

“Conservation Plan.” A plan, including a schedule for implementation, that identifies site specific conservation
best management practices on an agricultural operation.

“Department.” The Department of Revenue of the Commonwealth.

“Eligible Applicants.” A business firm or an individual who is subject to the taxes imposed by Article III, VI, VII,
VIII, IX or XV.

“Equine Activity.” The term includes the following activities: the boarding of equine; the training of equine; the
instruction of people in handling, driving or riding equine; the use of equine for riding or driving purposes; the
pasturing of equine.

The term does not include activity licensed under the Act of December 17, 1981 (P.L. 435, No. 135), known as
the Race Horse Industry Reform Act.

“Individual.” A natural person.
“Legacy Sediment.” Sediment that meets all of the following conditions:
   1. Was eroded from upland areas after the arrival of early Pennsylvania settlers and during centuries of intensive land use.
   2. Was deposited in valley bottoms along stream corridors, burying presettlement streams, floodplains, wetlands and valley bottoms.
   3. Altered and continues to impair the hydrologic biologic, aquatic, riparian and water quality functions of presettlement and modern environments.

“Nutrient Management Plan.” As defined under 3 PA.C.S. CH. 5 (Relating to nutrient management and odor management).

“Nutrient Management Specialist.” As defined under 3 PA.C.S. CH. 5 (Relating to nutrient management and odor management).

“Pass-through Entity.” A partnership as defined in Section 301 (N.0) or a Pennsylvania corporation as defined in Section 301 (N.1).

“Qualified Tax Liability.” The liability for taxes imposed upon and eligible applicant under Article III, IV, VI, VII, VII, IX or XV. The term shall not include any tax withheld by an employer from an employee under Article III.

“Riparian Forest Buffer.” An area of mostly trees or shrubs which is adjacent to and up-gradient from watercourses or water bodies and which meets standards established by the United States Department of Agriculture Natural Resources and Conservation Service.

“Technical Service Provider.” An individual, entity or public agency certified by the United States Department of Agriculture Natural Resources and Conservation Service and placed on the approved list to provide technical services to program participants or to the United States Department of Agriculture program participants.

“USDA-NRCS.” United States Department of Agriculture Natural Resources and Conservation Service.

Terms not found in Act 55, as defined by the Commission:

“Sponsor.” A business subject to the following Pennsylvania Taxes (personal income tax, corporate net income tax, capital stock and franchise tax, bank shares tax, title insurance company premiums tax, insurance premiums tax, and mutual thrift institutions tax) which receives a REAP Tax Credit equal to the amount of money it contributes toward eligible farm conservation projects. In return, the business receives its entire investment back in the form of a tax credit. Agricultural operations provide the matching funds. The sponsor is the applicant for the REAP Tax Credit.

“Agricultural Operation.” - as it relates to the $150,000.00 life time cap. Please see attachment 10 for complete definition.
Application of Tax Credit Limitations for Agricultural Operations:

For purposes of evaluating REAP applications and applying tax credit limits prescribed in Section 1703-E (B) of the Act, the Commission will consider an eligible applicant as a single “agricultural operation” where ...

- all tracts of land, whether contiguous or non-contiguous,

- are under the common ownership and or common management control of the person, whether as an individual, corporation, partnership or other legal entity, applying for the REAP tax credit and have organizational structures that include or retain the same or significantly similar ownership, management, directors, officers or shareholders

- or which utilize substantially common management or production resources such as land, equipment, labor, accounting and business systems to support one or more farm enterprises, partnerships, corporations or other farm related entity.

These entities with significantly similar organizational structures or which utilize substantially common management or production resources will be considered a single “agricultural operation” for purposes of REAP tax credits.

Please note: For REAP purposes, the operator of the agricultural operation receiving REAP tax credits is considered the property owner.
Attachment 11

REAP Cover Crop Guidelines

*See REAP Application p14 for the Cover Crop Job Sheet

Cover Crop

Practice Code: 340  
Reportable Units: Ac.  
Lifespan: Annual  
Tax Credit Rate: 50%

- Applicants may apply for up to 3 years of proposed cover crop plantings. Invoices must be submitted at the end of each year’s cover crop establishment.

- Tax credits are capped at $35/acre for single species plantings and $45/acre for multi-species plantings. ✓ Multi-species plantings must include both a grass species and a broadleaf species.

- Only seed and planting costs are eligible. Herbicide/nutrient/lime applications are not eligible. ✓ please refer to the NASS custom planting rates, if necessary.

- Spreading of manure on the cover crop must be consistent with a current Nutrient Management Plan or Manure Management Plan.

- All seed purchased for cover crop must be tested and properly labeled in accordance with the PA Seed Law and regulations. If the grower elects to use home-grown seed, it must be tested for purity, germination, and absence of noxious weeds by a recognized seed laboratory prior to seeding.

- Cover crops harvested for grain are not eligible for credits.

- Completion of the REAP Cover Crop Job Sheet (p14 of the REAP Application) is required.

| Purpose: Cover Crops have multiple purposes that benefit many aspects of the land. |
|--------------------------------------------------|------------------------|
| Reduce erosion from wind and water               | Weed suppression       |
| Increase soil organic matter content             | Provide supplemental forage |
| Capture and recycle or redistribute nutrients in the soil profile | Soil moisture management |
| Promote biological nitrogen fixation            | Reduce particulate emissions into the atmosphere |
| Increase biodiversity                           | Minimize and reduce soil compaction |
REAP Equipment Trade-In/Trade-Up Policy

This policy applies to the following equipment: No-Till Planters and Drills, Low Disturbance Residue Management, Low Disturbance Manure Injection, Precision Fertilizer Application Equipment.

In some circumstances, an applicant may wish to sell or trade in a piece of equipment for which the applicant has received a REAP tax credit prior to the expiration of the required lifespan under the REAP program (7 years for new equipment, 3 years for used equipment) for a comparable or larger piece of eligible equipment. The following policy is in effect for these instances.

- The applicant must immediately make a request to the Commission in writing.
- The Commission will consider the request for a “waiver” of the lifespan requirement if the applicant is trading or selling the original piece(s) of equipment for another piece of equipment which will allow the farmer to utilize the equipment on a comparable or larger number of acres.
- An “Equipment Certification Form” must be submitted for the new piece of equipment.
- The applicant will be eligible for a REAP tax credit, up to the maximum $150,000 per applicant, which equals the difference between the credit received on the originally purchased piece of equipment, and the eligible credit on the new equipment. The applicant must submit a new application for these costs.
- If the applicant receives REAP tax credits for the difference between the cost of the original equipment and the cost of the new equipment, the lifespan requirement “starts over” with the new piece of equipment.
- If the applicant does not wish to apply for additional REAP tax credits, the lifespan for the original equipment will pass over to the “new equipment.” The new equipment must be used until the lifespan requirement of the original piece of equipment has been met.
- If the recipient of a tax credit sells equipment for a REAP tax credit was received (prior to the expiration of the lifespan) without replacing it with a comparable piece of REAP-eligible equipment, the recipient may be required to repay a prorated portion of the tax credit.
- If the recipient of a tax credit does not provide prior written notification to the Commission that the recipient requests to trade in or sell a piece of equipment for which a REAP tax credit has been received, the recipient is subject to the provisions of the REAP statute which require the recipient to return to the Department of Revenue the full amount of the tax credit originally granted.
