

2020 HEMP VARIETIES OF CONCERN & PROHIBITED VARIETIES

This document lists hemp varieties which were grown in Pennsylvania during 2017, 2018 or 2019, and have had, in one or more instance, a THC test result of above 0.3%. Applicants for Pennsylvania’s Hemp Permit shall review this list of hemp varieties before sourcing, purchasing, and acquiring the hemp seed, clones, propagules or cuttings which they will be growing in 2020, and shall ensure that they comply with all the requirements of Pennsylvania’s Hemp General Permit. The hemp varieties on this listing are categorized as Prohibited Varieties, Varieties of Concern or as varieties which were listed on Kentucky Department of Agriculture’s varieties of concern listing. Varieties listed as Prohibited Varieties will not be approved for growth in 2020.

Hemp is defined in Pennsylvania’s Hemp General Permit as “The plant *Cannabis sativa* L. and any viable part of that plant, with a delta-9 tetrahydrocannabinol (THC) concentration of not more than 0.3 percent on a dry weight basis.” The varieties which have not met those characteristics can be defined as either of the following:

(i) **Prohibited Hemp Varieties.** Prohibited Hemp Varieties have tested higher than 1.0% total THC in previous years and resulted in required crop destruction.

(A) Prohibited Hemp Varieties and the seed thereof, listed by the Department, shall not be approved for planting, propagation, cultivation, sale, transfer, retail, wholesale, distribution, transportation, storage or warehousing in the Commonwealth.

(B) Prohibited Hemp Varieties and the seed thereof shall be illegal in the Commonwealth and shall be subject to a Control Order, ordering its destruction, a stop-sale order or a seizure and condemnation order or any combination of the above and the imposition of penalties as allowed under the Act.

(C) For 2020, the Prohibited Varieties are as follows: Baux, Boax, Brilliance, Chab/Cherry, Endo Cherry, Oregon Cherry, Original Cherry, P3, SJ1, Socati T2, Sweetened, USO 31, Young SIM 10

(ii) **Hemp Varieties of Concern.** Hemp Varieties of Concern are varieties that have tested higher than 0.3% total THC in some Pennsylvania planting locations in previous years, or have tested high in other states, resulting in crop destruction. Hemp Varieties of Concern including the seed thereof shall be pre-approved by the Department for planting, propagation, cultivation, sale, transfer, retail, wholesale, distribution, transportation, storage, warehousing, or processing in the Commonwealth. Using these varieties may put you at higher risk for crop destruction due to above compliance tests.
