CEWMs and SIRs are required to have certified test weights and test loads for all commercial scales as listed in Table 4 of the most current National Institute of Standards and Technology (NIST) Handbook 44 (as it applies to the inspection of scales); and/or certified standards of appropriate size, volume and classification necessary to properly inspect the device(s) as required (as it applies to all other device types). Certified standards are those that have been examined and approved by an approved metrology laboratory with current traceability to NIST.
